CloudDirect®

Cloud, Data and AI Modernisation

Modernise platforms that unlock agility, insight, and AI at scale

Building Agent-Ready Enterprises with tailored solutions that deliver

AI Productivity | Cloud, Data and AI Modernisation | Security and Compliance

AI is only as powerful as the platform and data it runs on. Modernising your cloud and data infrastructure is essential in unlocking agility, ensuring compliance, and enabling AI to deliver real business value.

Cloud Direct's suite of services unlock immediate value through modernising your infrastructure, data, and AI foundations, allowing you to scale with confidence.

Outcomes that matter

Real-time insights

Move beyond slow, retrospective reporting with modern cloud and data foundations that deliver instant access to accurate, actionable insights and empower faster, smarter decisions.

Accelerate organisational value

AI only scales when built on a robust, modern platform. Unify your cloud and data estate to unlock agility, enable advanced analytics, and create a foundation for AI-driven innovation.

IT as a growth engine

Shift IT from "keeping the lights on" to enabling transformation with an approach that optimises technology investment, reduces operational overheads, and positions IT as your competitive advantage.

Cloud Direct Solutions

Cloud and Data Modernisation Accelerator

Transform legacy infrastructure into agile, cloud-native platforms.

- *Unify and optimise your cloud environment for performance and cost efficiency*
- *Create a trusted data foundation for real-time insights and AI readiness*
- *Accelerate agility and growth with modern architectures and automation*

AI and Analytics Enablement Programme

Turn data into decisions and AI into measurable business outcomes.

- *Accelerate analytics adoption with rapid deployment and best-practice dashboards*
- *Unify your data estate for seamless integration and governance*
- *Govern AI responsibly with compliance guardrails and risk assurance*

Your agent-ready journey

We'll join you wherever you are, across all pillars and maturity stages.

Plan → Accelerate → Scale → Optimise
