Consulting service - implementation

Employee Experience Platform

— Microsoft Viva Goals

Freedom Systems Inc.

Does your Organization...

Struggle to implement an effective OKR framwork with the existing tool set?

Has limited transparency and accountability to track OKR progress?

Has challenges in collaboration and communication across departments?

Microsoft Viva Goals : Purpose and Alignment

## Create clarity and stay aligned at scale

Define success as a team, connect work to outcomes and align at all levels of the organization
Focus teams on impact, not output

Share progress and insights across the organization, focus on work that moves the business forward, and stay agile at scale

Bring goals into the flow of everyday work

Brings data and actions seamlessly into where people are working
