FIREBOT

Agentic AI Chatbot that Automates every aspect of Firewall and Network Change Management.

As Enterprises scale, one thing consistently slows delivery: **Manual** Network and Firewall **Configurations**. They consume valuable engineering time, introduce human error, and create bottlenecks across multi-vendor environments.

A **Patented**, AI-Native Platform that Automates Firewall Change Management Safely, Compliantly and at Scale.

CONVERSATIONAL
INTENT DRIVEN AI

MULTI VENDOR

AUTOMATED
DEPLOYMENT

VALIDATION &
COMPLIANCE

Firebot.ai
AI-POWERED SECURITY AUTOMATION

PRECISION. **SPEED**. AGILITY

70–90%	Engineering Time Reduction
5–10×	Ticket closures accelerated
30–70%	SLA Reduction
40%	OPEX Reduction
Zero	Error Deployments

Why Firebot ?

Feature

Vendor Support
Execution
Control
Scale
Licensing

Legacy Automation

Single-vendor scripts
Static Playbooks
Manual
Limited
Complex

Firebot AI

Multi-vendor, AI-native
Dynamic, intent-driven
Conversational
Cloud-scale (Azure)
Simple, usage-based

Deploy Faster

The Value is Human. **The Speed is AI.**
