

EAM FOR D365 F&O

Advanced asset-management and maintenance optimization on unified platform

At Awara IT, we help production companies cut repair and maintenance costs through expert process design, mobile work-order apps, and analytics — all embedded in Dynamics 365 F&O.

WE OFFER

-  **Asset Management Assessment & Design:** Evaluate your current practices and co-design “to-be” maintenance, procurement, and inventory workflows.
-  **Mobile Technician App:** Deploy a low-code Power Apps solution — complete with offline work orders, barcode scanning, and photo capture—to empower field teams.
-  **Cost-Optimization Analytics:** Built-in Power BI dashboards surface repair, maintenance, and procurement spend with real-time trends and recommendations.
-  **Seamless F&O Integration:** Automate parts replenishment, cost posting, and outage planning through Dynamics 365 Supply Chain Management and Finance modules.

BEST FOR

- Manufacturers with high maintenance and downtime expenses
- Production and maintenance leaders seeking digital field-service tools
- Operations and finance teams needing unified asset-management and cost control

Cost reduction:

Up to 31%

for emergency works

Up to 30%

for equipment maintenance

Up to 29%

for urgent purchases

EAM FOR D365 F&O

Advanced asset-management and maintenance optimization on unified platform

At Awara IT, we help production companies cut repair and maintenance costs through expert process design, mobile work-order apps, and analytics — all embedded in Dynamics 365 F&O.

KEY BUSINESS OUTCOMES & BENEFITS

Lower Maintenance Costs: Cut emergency and routine maintenance spend through optimized scheduling.

Inventory Efficiency: Decrease urgent-purchase overhead with proactive parts management.

Empowered Workforce: Equip technicians with mobile tools for faster, more accurate work execution.

ABOUT AWARA IT

We automate key business processes and implement the most innovative solutions, use world-class technologies, manage IT assets, help companies switch to cloud technologies and work in a secure information environment. We work with a wide range of software, from classic office products to large-scale international solutions. We have in-depth knowledge of local implementation specifics, helping clients to optimize their global business.
