Enable Frontline Workers
3-day workshop by Awara IT

Awara IT offers a 3-day workshop that will enrich frontline workers experience at retail, manufacturing, healthcare, education, financial and professional services companies. It gives a hands-on experience with Microsoft 365, Teams and even Power Platform.

Intended for

retail, manufacturing, healthcare, education, financial and professional services companies.

Event type

This workshop is normally held online.

Value to customer

- Reduce time for self-study of Microsoft products
- Receive best-practices for your industry and company size
- Plan implementation and avoid common pitfalls

Enable frontline workers workshop in details.

Agenda

- Pre-engagement questionnaire
- Define scope and high-priority business scenarios
- Real-time technical demos of building solutions for a frontline workforce with Teams, Teams Apps and Power Platform
- Build the plan – value calculator, scenarios analysis and prioritization, report and recommendations readiness

For more productivity, we will share session video record, useful links for self-study, report, and recommendations presentation according to Microsoft best practices. You will also get solution package with PoC solutions developed during the workshop or ready-to-use with Viva Learning and Microsoft Forms adoption training materials for Microsoft Teams with knowledge test.
