

Regression suite automation tool (RSAT) for D365 F&O CONSULTING

At Awara IT, we offer our RSAT for D365 F&O consulting with live tool demos, detailed configuration, pilot test runs, and practical staff training — all designed to help you try, set up, and master RSAT.

WE OFFER

- ✓ **Live Demonstrations:** See RSAT in action on our demo D365 F&O environment, on your local setup, and within your own systems.
- ✓ **Readiness Analysis:** Assess your current processes and advise whether and when RSAT makes sense for your team.
- ✓ **Custom Test Development:** We'll hand-craft both trial scripts and full production test suites to match your real-world workflows.
- ✓ **Staff Training:** Teach your team to record new tests, run them automatically, analyze failures, and keep suites up to date.

BEST FOR

- D365 F&O projects needing regression test automation
- QA and IT teams aiming to cut manual testing overhead
- Organizations that want continuous, reliable validation of critical business processes

KEY BUSINESS OUTCOMES & BENEFITS

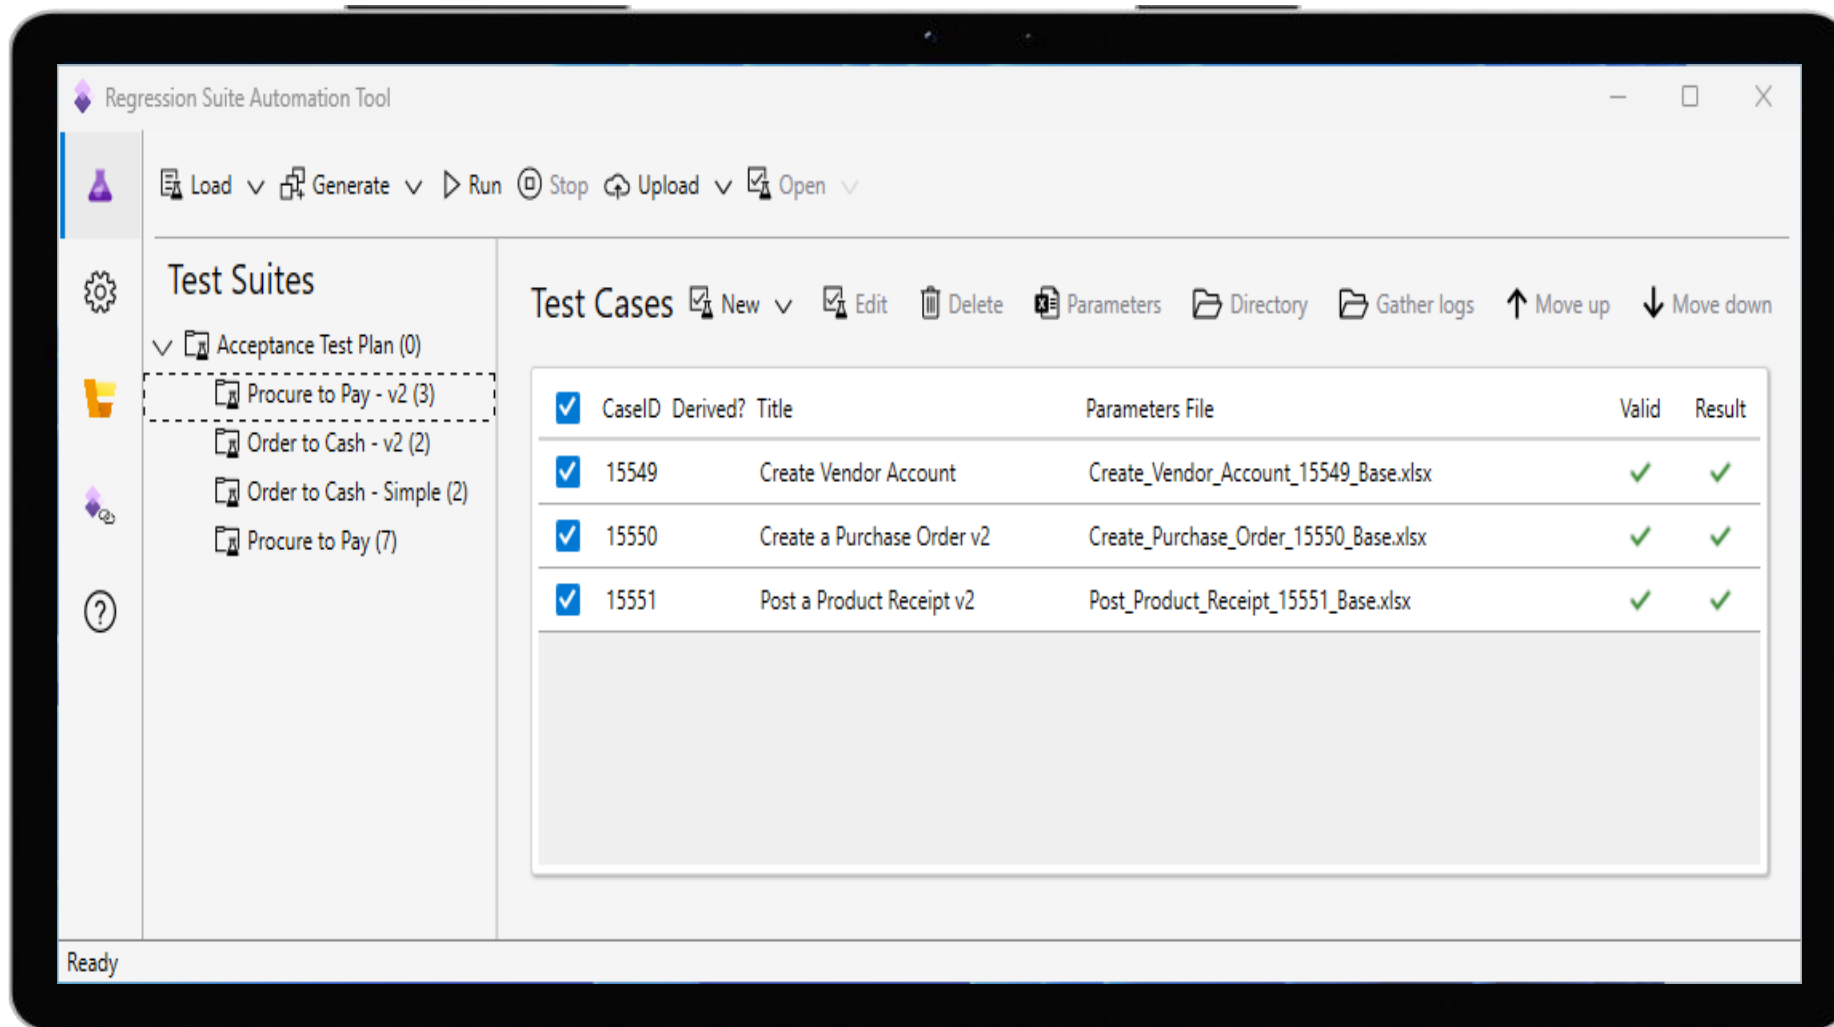

Reduced Manual Effort: Automate up to 80% of your regression testing, freeing QA to focus on new features.

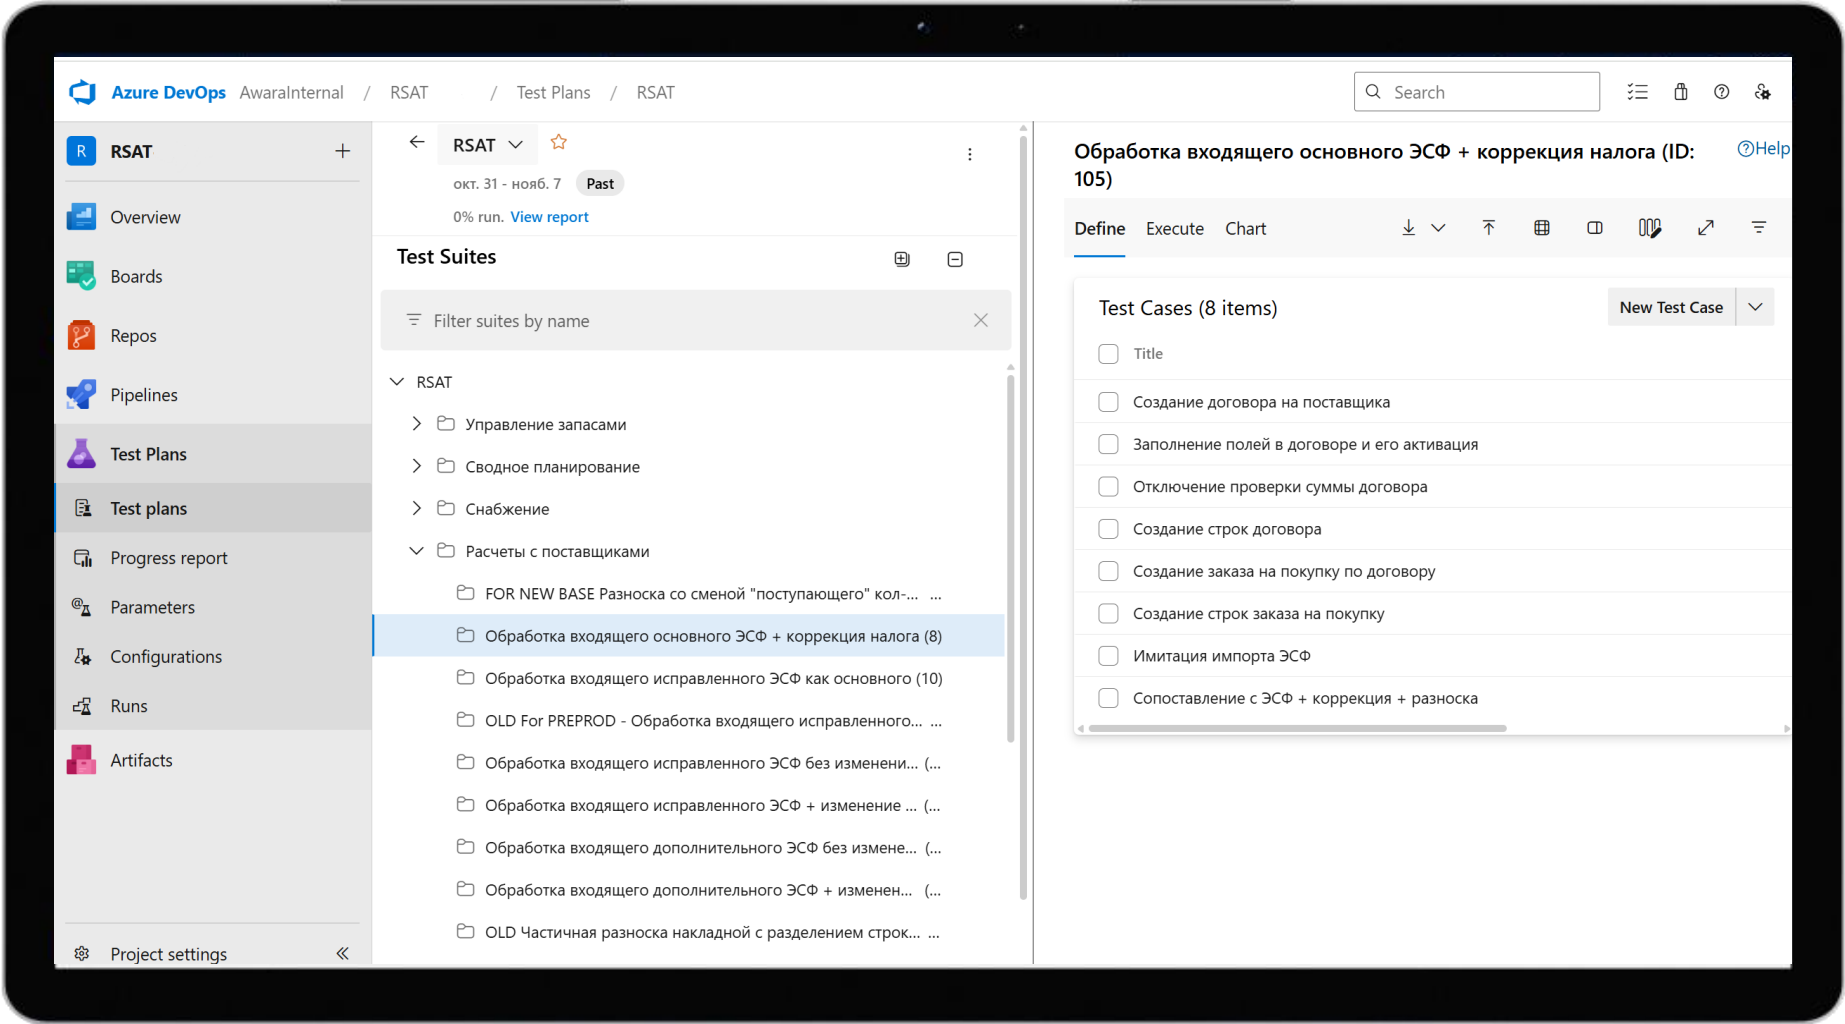

Continuous Confidence: Know with every release that key business processes still work exactly as expected.

In-house testing capability: Your team owns writing, running, and maintaining tests.

ABOUT AWARA IT

We automate key business processes and implement the most innovative solutions, use world-class technologies, manage IT assets, help companies switch to cloud technologies and work in a secure information environment. We work with a wide range of software, from classic office products to large-scale international solutions. We have in-depth knowledge of local implementation specifics, helping clients to optimize their global business.
