

Microsoft Viva for IT professionals: 1-day workshop

Awara IT holds hands-on workshop that will help new Microsoft Viva's technical professionals/administrators to fast-start its implementation according to best practices.

This 1-day workshop will help IT professionals to fast start Microsoft Viva implementation, according to best practices, enriching it with related Microsoft products.

About this workshop

Microsoft Viva is an important part of Microsoft ecosystem.

To understand the real solution value, we recommend that our customers consider not only core Microsoft Viva products but also Teams, Syntex, Azure Machine Learning, Power Platform and Microsoft 365 Graph.

Deliverables

As a key take-away you will gain practical knowledge of how to implement Microsoft Viva.

You will understand key approaches and best practices of this implementation

As a bonus, Awara IT will provide you with a workbook with key insights, lessons learned and steps, as well as a workshop recording (or technical demos pre-event recordings).
