Making your daily work easier by delivering an integrated Microsoft 365 user experience across Microsoft Teams, SharePoint, Outlook, Office and OneDrive. Office2SharePoint for Teams helps you in your daily work providing you with the document or file you are looking for.

Office2SharePoint for Teams

Office2SharePoint for Teams
iGlobe Office2SharePoint is a package of three Apps.
- Office2SharePoint for Teams
- Office2SharePoint for Outlook
- Office2SharePoint for Office (Word, Excel and Power Point)

As content is growing and growing, it becomes difficult and complicated to find exactly the file you or your team need. Studies shows that almost one in five office professionals ranked "digging for files they need" as the No. 1 barrier to remote work and fifty-four percent reported wasting time search for files in online filing systems. Office2SharePoint Teams App speeds up work and minimizes these distracting searches. Office2SharePoint for Teams is making it easier than ever! Find the files you are looking for on any SharePoint site, Teams site or OneDrive, directly from Teams, getting assistance from Office2SharePoint Teams Bot, using a Personal App, Microsoft Teams Massage Extension, or from a Teams Meeting.
