

Enable full utilization of LLMs

LLMs hold great potential to transform how we work and fuel the creation of new products and services across industries. However, two key obstacles prevent many from fully utilizing LLMs:

1. PROTECTING DATA INVOLVED IN CHAT

2. ALIGNING CHAT USAGE WITH COMPANY ETHICS & REGULATIONS

2021.AI AGS solves both challenges.

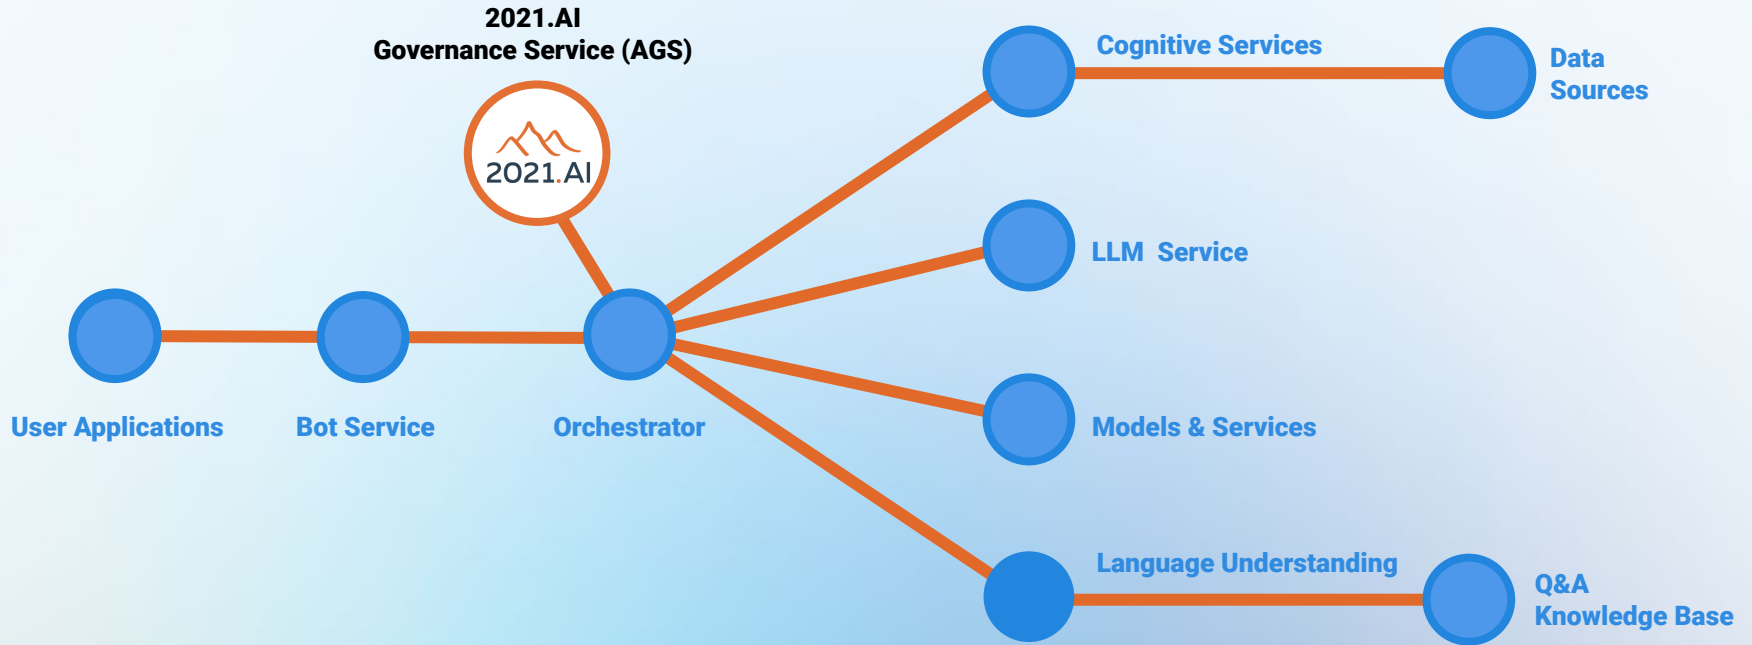

AGS offers you

2021.AI AGS provides complete **transparency and traceability** of your company's chat activities, so you can easily control and govern them in accordance with your relevant guidelines and regulations.

2021.AI AGS integrates directly with **your Orchestrator or Virtual Assistant**. This seamless integration empowers you to easily govern your LLM usage, enabling you to **realize the full potential of your LLMs**.
