

hospoIQ provides real-time, historical and predictive sales, wage cost and financial information, delivered directly to your mobile phone or web browser. Regardless of what systems you use, it delivers 'plug and play' integration with your POS, rostering system and Xero in an instant. All the critical information you need to run your business, day-to-day, is then at your fingertips, via one easy-to-access set of dashboards and reports.

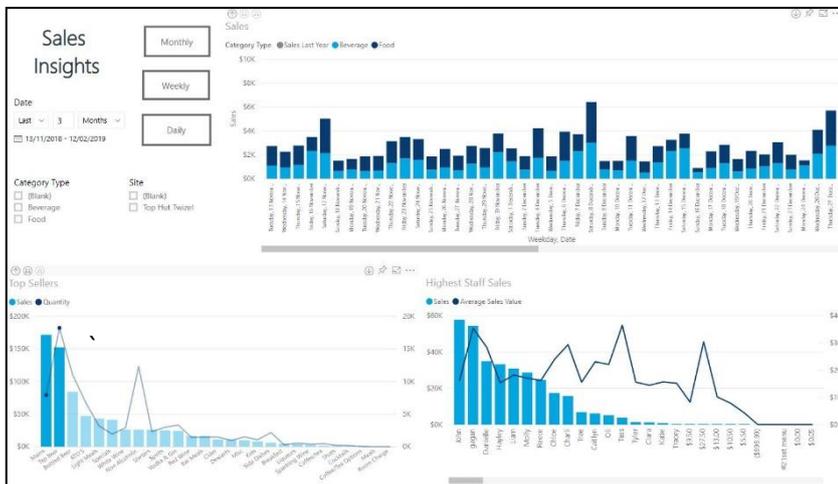

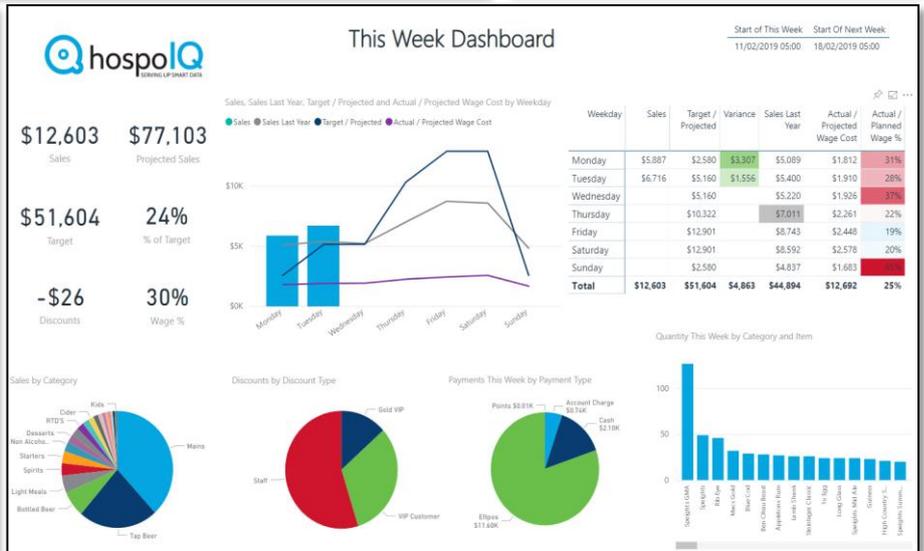

Live and Mobile

Track your daily performance with live sales data straight to your phone via mobile app.

Plan for the Future

Plan this week and next with projected sales, sales targets and rostered wage costs. Projections are derived automatically from recent weekday patterns, the same day last year and public holidays or your own special events. You can then set your own sales targets and also ensure staff rosters align with your plan.

Review Sales History, Top Selling Items and Best Performing Staff

Know what your sales are by day/week/month, know what you are selling the most of (and when) and which staff are the biggest sellers.

hospoIQ is a certified Xero Partner App and provides two-way integration which includes a range of financial reports designed for hospitality, to gain a complete view of your business (including gross profit for food and beverage, salaries, expenses and net profit).
