Start your free 30-day trial instantly - Install from Microsoft AppSource

No payment information needed to trial.

All the built-in power of SharePoint

If you're looking for a simple, no-fuss solution to sharing your project management lists with the right audience, we have the answer. Publish Gantt charts to your organisation. Data is stored in a SharePoint List and can be integrated with other processes.

Task editing uses a customisable SharePoint form with pre-defined formatting out of the box. Your business data deciphered in minutes.

Multiple export options

Easily export to data to PDF or image format for sharing with an external audience via email. Underlying SharePoint list data can be exported to Excel spreadsheets.

Fully featured Gantt component

Includes powerful Gantt chart features - Projects, Tasks, Milestones, critical path display, and resource assignment. Everything you need as a Project Manager using Microsoft SharePoint Lists and resources.

Modern Gantt
Chart

Ease of use

Creating a chart couldn't be simpler - add the web part, choose the data source, select your chart type and it'll render immediately on your page. It's that easy - leaving you to get on with the higher value tasks on your to-do list.
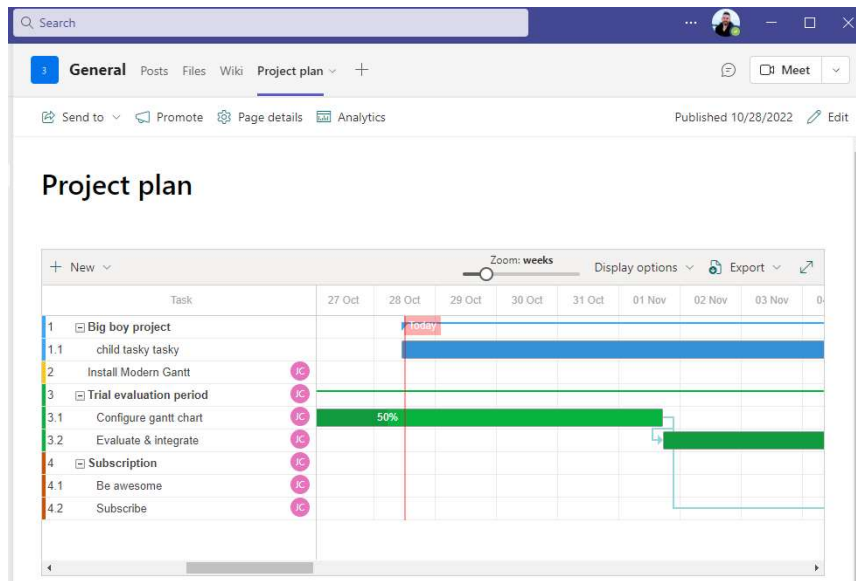

Gantt Appearance ⌃

☑ Show toolbar
☐ Highlight critical path
☑ Show task informational columns
☑ Show line indicating the current date

Bar label ⓘ

Title ⌄

No Code Required

No custom code, no complex configuration. Business users have control over the layout and features.

Microsoft Teams Integration

Embed a full SharePoint page Gantt chart within a Teams tab.

Share with your colleagues

No need to worry about persmissions or user licenses. You can share any of our charts and dashboards around the organisation. If you have access in Microsoft, ListBurst will allow access. One less thing to worry about!

Pricing

Get started with your free trial today. Our licence applies to the whole SharePoint tenant - meaning you don't need to worry about users and individual permissions!

A license is required to continue usage after initial 30-day trial period.
Payment can be made either via credit card or via purchase order/invoice.

Subscription covers entire organization (SharePoint tenant)
