

Microsoft Dynamics 365 & PowerPlatform Specialist

365 Mechanix is a specialist Power Platform practice that focuses on delivering solutions that provide measurable business value. We do this by combining our industry expertise, compassion for people and technical expertise to deliver innovative solutions.

We are passionate about people and providing technological solutions that matter. Our service offerings below are based on these foundations.

Consulting

Realise your business potential through Dynamics 365 & the Power Platform. We deliver solutions that provide measurable business value.

Health Assessment

We offer a complimentary health check on your existing Dynamics 365 environment. We provide feedback and recommendations based on Microsoft best practices.

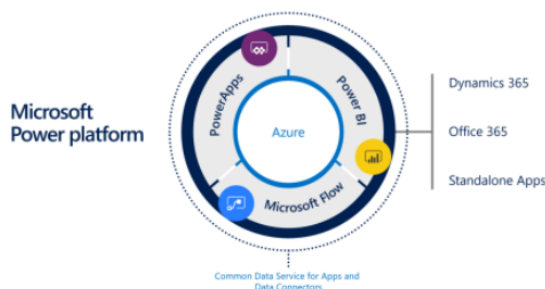

Workshops & Training

We facilitate and run workshops catered to all audiences within your business. We also empower and enable your staff by delivering modern and up to date training.

Support

We provide various support options to help you continue to leverage your existing investments.
