NEWTON Technologies, a.s.

- 🏠 Founded in Prague in 2008
- 🏠 Focus on speech recognition technology – development of Beey since 2018
- 🏠 Part of the NEWTON Media Group
- 🏠 Cooperation with Technical University of Liberec in the Czech Republic
- 🏠 Offices across Europe
- 🏠 Customers in over 50 countries

Quality & diversity come first with **Beey**

- More than 30 languages available
- Always using the best technology available
- Regional varieties (British/American English, European/Brazilian Portuguese etc.)
- Support of LTR and RTL writing systems (e.g. Arabic, Hebrew)
- Regular quality testing and improvements

What can **Beey** offer?

- Fast and accurate speech recognition based on neural networks
- Automatic speaker change detection
- Text editing and formatting
- Full-text search, audio and text alignment by using timestamps
- Subtitle mode for creating professional subtitles, automatic translation of projects and summary

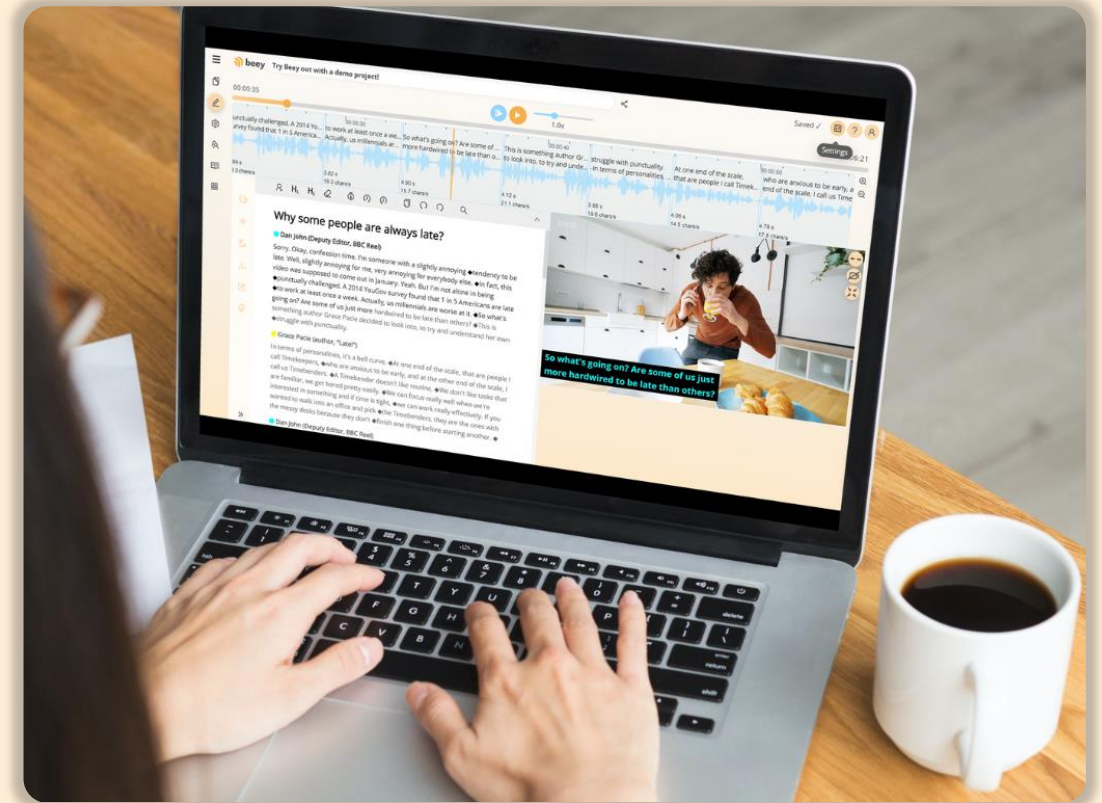

Beey can convert

- 🏠 Most commonly used audio and video formats
- 🏠 Conferences, lectures, workshops
- 🏠 Interviews
- 🏠 Court and parliamentary proceedings (multi-channel recordings)
- 🏠 Online meetings (stream)
- 🏠 Dictation from mobile phones and voice recorders

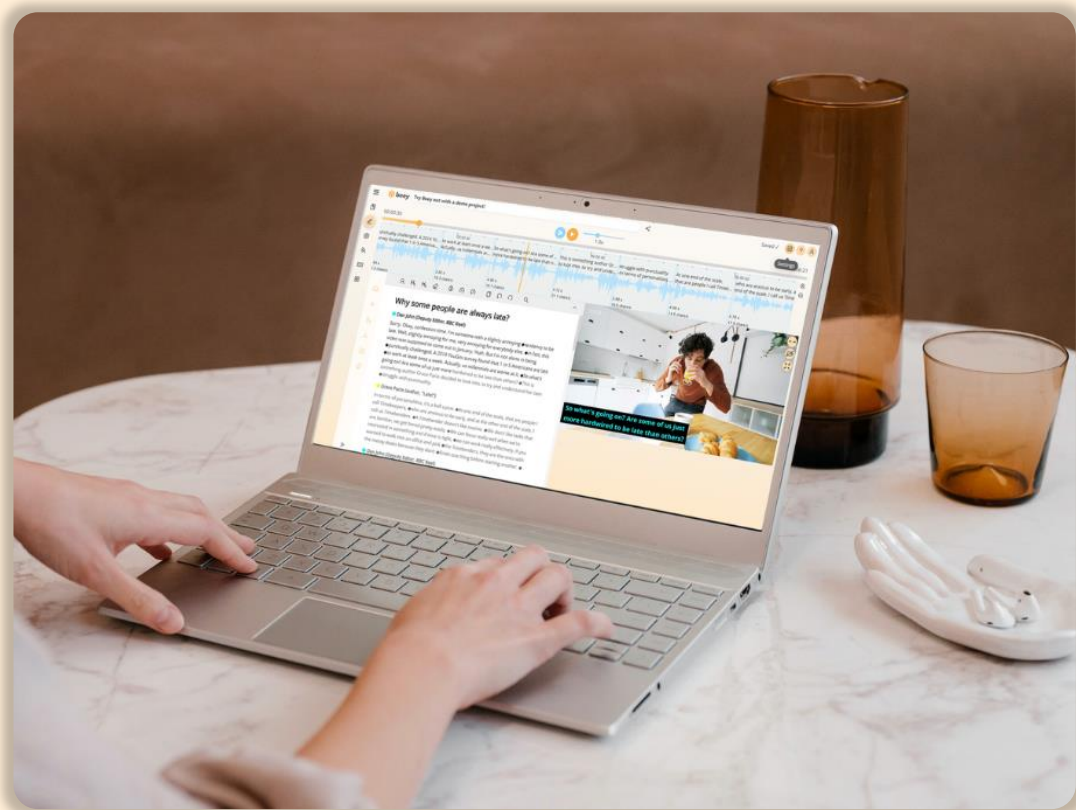

How to use Beey?

- 🔧 **Upload audio or video** – the quality of the recording is crucial
- 🔧 **Correct mistakes**– the intuitive editor helps you in correcting any errors; you can edit an ongoing transcription, no need to wait until the process is finished
- 🔧 **Download the final DOC or PDF file** – the result can also be easily copied, e.g. to MS Word

Try **Beey** by yourself
