# Moira

Barcode scanning app

4APP SOLUTION - BUSINESS CENTRAL

Moira is a barcode scanning system that is always the best choice for tracking warehouse goods.

· · · · · · · ·

It supports a variety of industry standard scanners and other mobile terminals

· · · · · · · ·

Moira enables efficient warehousing and logistics, and supports all warehousing processes with an intuitive Android scanner app.

· · · · · · · ·

Enables much faster processing of transactions in the warehouse and with significantly fewer errors.
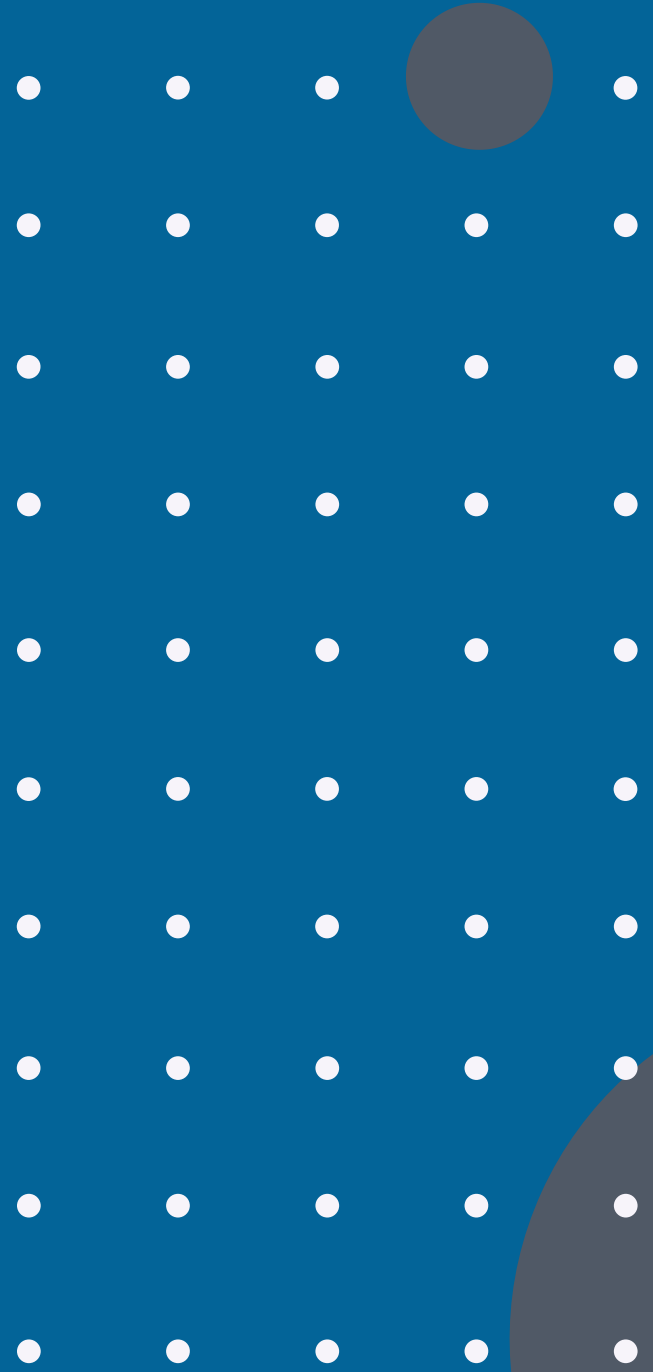

Moira

1. Transaction registration via the device scanner is performed directly in the Microsoft Dynamics 365 Business Central and it happens at the same time as the warehouse employee is performing a task in the warehouse.

2. The connection between Dynamics 365 Business Central / NAV and handheld terminals is wireless.

3. The goods, shipments, etc. are registered here and now, and the physical warehouse remains synchronized with the data in the Dynamics 365 Business Central
