

# MICROSOFT 365 MANAGED BACKUP

**MICROSOFT IS NOT  
RESPONSIBLE FOR  
DATA BACKUP.  
YOU ARE.**

Microsoft Teams, with over 270 million users, is the most used workstream collaboration platform becoming indispensable for companies aiming to become a modern workspace with a hybrid work model. Like any other business-critical application, Microsoft Teams data needs to be safeguarded to guarantee its recovery in case an incident occur.

## THE SITUATION

Data protection is no longer an option: human errors, ransomware and accidental deletion are just few reasons that threaten your data daily.

## THE CHALLENGE

As many companies still don't know that is their responsibility to backup Microsoft 365 data, it happens very often that many of them lose critical data.

## THE SOLUTION

Veeam Backup for Microsoft 365 gives companies the power to securely backup Office 365 to any location: on-premises or in cloud object storage

**Data loss is  
disastrous.  
Prevent it.**

Data loss drastically impacts business: it's expensive, unproductive, raises legal and compliance issues, and can damage company's brand reputation. For how much we do, we can't totally avoid the risk of human errors or cyberattacks to occur. Then, it is very important to have control on data backup to avoid drastic consequences.

# Don't wait for tomorrow. It can be too late.

The importance of protecting Microsoft 365 data is out of discussion and choosing the right software for doing it, is a key choice. Veeam® Backup for Microsoft 365 is the #1 BaaS on the market allowing companies to safeguard data.

**You are not  
alone. We  
stand with  
you.**
