

# Datacenter and Cloud Modernization

## ABOUT 4MSTech

4MSTech is an IT Services company, focused on infrastructure Microsoft Cloud Solutions. We offer Professional, Managed and Adoption Services for Microsoft 365 and Azure and we are experienced with large complex projects on customers in different segments.

## WHAT WE OFFER

### ASSESSMENT AND PLANNING

4MSTech evaluates your business needs, objectives and current infrastructure to create Vision and Planning along with Business Case. We use CAF (Cloud Adoption Framework) in our proved methodology, and we bring experience from other deliveries.

### ADJUSTS AND ENABLEMENT

We create the Landing Zone and all foundational pieces of the future Azure environment. We also support customer on adjusting their on-premises components to enable a hybrid IT landscape with Cloud as an extension to existing Datacenter (DC).

### MODERNIZATION

We use Azure PaaS to host applications and databases coming from on-premises or other Clouds with architectural adjustments to take advantages of Azure. We also enable other components, like Backup and Monitoring.

### STABILIZATION

After go-live, there may be tuning to Apps and Databases on Azure, as well as rightsizing and definition about reserving Instances, aligned with Business Case. We also transition to customer operations or 4MSTech Managed Services team.

## WHAT OUR CUSTOMERS ARE SAYING

*“4MSTech was able to understand our needs and quickly bring operational environments on Azure to host our business-critical modernized applications. Deep application architecture review and knowledge of Azure Services were fundamentals to our project success.”*

– Luis Coimbra, IT Director – Architecture and Data, COGNA

# Datacenter and Cloud Modernization

Microsoft Azure is an increasingly set of Cloud services to help your organization facing business challenges. It is the freedom to create, manage and implement applications on a global network using your favorite tools and structures.

## WHY AZURE

### **BE FUTURE-READY**

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

### **BUILD ON YOUR TERMS**

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

### **OPERATE HYBRID SEAMLESSLY**

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

### **TRUST YOUR CLOUD**

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
