4n6 ENEX Splitter Tool

A robust and efficient solution to effectively split large ENEX files into smaller files.

When it comes to management of large Evernote files, it becomes quite challenging for the users as well to manage and organize the files due to its large sizes. This is where the ENEX Splitter comes into play. The efficient solution helps the users to divide the large files into smaller, more manageable size.

Visit the official page: 4n6 ENEX Splitter Tool

Step 1: Download the ENEX file splitter tool and then click on the Open Button.

Step 2: Use the Choose Files or Choose Folders Option to load the ENEX files into software.

Step 3: To preview the Evernote files, click on the loaded files.
