

4wardPRO s-WAR (smart W10 Automated Rollout)

A complete set of tools and automated processes to successfully manage Window 10 onboarding. Starting from an initial analysis of actual situation (infrastructure, software, policies) and actual/future needs we design, implement & manage the best approach to minimize impact, easy and accelerate adoption of W10 within the enterprise. S-WAR (Smart Windows10 Automated Rollout) unlocks s-WOW experience (Smart Ways of Work) and is available in 3 packages: **cloud only** (Windows 10 Autopilot), **Lite Hybrid** (Autopilot or Windows Configuration Designer), **Full Hybrid** (/w SCCM).

You will gain a Modern Operating system, Software, Policy, deployment + MDM, Security & monitoring thanks to a complete set of technologies like Office365, Windows 10 Enterprise, Azure OMS, Enterprise Mobility & Security.

4wardPRO adds its own set of ready-to-deploy OS/SW packages, expertise in hundreds of deployment projects + ring patching automation with optional full managed Services which includes licenses + professional services within one monthly fee.
