The First FHIR Interoperability Platform Built Specifically for Payors

About Onyx Health

Onyx brings the experience of building the largest FHIR interoperability solution in the world, CMS Blue Button 2.0 that supports 60 million Americans.

About the Microsoft partnership

"OnyxOS not only meets CMS mandate requirements but exceeds them on all counts. Microsoft is proud to partner with Onyx in making the OnyxOS platform available in the Azure Marketplace."

— Sam Robinson Chief Health Plan Officer, US HLS Microsoft

WHAT WE OFFER

OnyxOS is fundamentally transforming how health plans and providers share information and collaborate with patients.

OnyxOS transforms data in your healthcare and business applications into FHIR formats. This allows the data to be more easily shared among applications at your organization and with applications at partner organizations..

Key benefits include:

- Achieve Compliance: comply with CMS mandates out of the box (Patient Access API, Payor-to-Payor)
- Accelerate Business: use data to create new business models (data at point of care, social determinants of health, etc.)
- Engage Consumers: enable patient access API and support consumer-controlled apps

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
