Experience Modern Desktop within your organisation and see for yourself how Microsoft's cloud managed desktop can help you deliver business change.

A **modern desktop** is secure, productive, and efficient.

So what can 848 do for you?

848 will work with you to deploy a tailored 15 day modern desktop PoC through developing an understanding of your business requirements, develop a strategy for secure working utilising Windows 10 and M365 technologies, and continually assess and monitor the user experience.

This will enable 848 to deliver a successful PoC to the benefit of your organisation and help you transition a cloud managed modern desktop.

BUSINESS CHANGING IT

What will 848 do for **YOU**?

848.Group
BUSINESS CHANGING IT

PLAN

✓ **Workshop including:**

- ✓ Overview of Windows 10 and M365
- ✓ Review of existing customer licensing
- ✓ Review of PoC users
- ✓ Review of application estate
- ✓ Review of existing core infrastructure
- ✓ Review of existing identity and security including Azure AD, AD, Azure Security Services, M365 Security and any 3rd party security products
- ✓ Review of existing client configuration

✓ **High level design and project plan of PoC implementation**

BUILD

- ✓ **Deployment of modern desktop through autopilot to 25 users as per high level design in existing customer Office 365 tenant where applicable**
- ✓ Configuration of MS Teams with an initial team to support the PoC
- ✓ **Configuration of MEM to deploy Microsoft security baselines**
- ✓ Installation and publishing of up to 5 applications and Office 365
- ✓ **Basic implementation of Azure information protection**
- ✓ Low level design including as built configuration

RUN

- ✓ **PoC user onboarding**
- ✓ Support 08:30 – 18:00 Monday to Friday during PoC
- ✓ **PoC user survey**
- ✓ PoC review
- ✓ **Next steps**

OUT OF SCOPE

- ✓ Data migration
- ✓ Remediation of existing Office 365 tenant
- ✓ Supply of any required hardware or internet connectivity

We have over a decade of experience in Planning, Building and Running intelligent Microsoft products and solutions that enhance and add value to organisational operations, delivering Business Changing IT.

THE 848 GROUP IS A LEADING MICROSOFT GOLD PARTNER WITH 14 GOLD COMPETENCIES...

We are considered in the highest tier of Microsoft Partners, achieving fourteen Gold Competencies that illustrate our expertise, knowledge and strength in the provision of Microsoft Technologies.
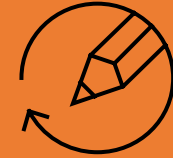

What is the Modern Desktop?

A **Windows 10** device running **Microsoft 365 Apps**, managed by **Microsoft Endpoint Manager** (MEM) and powered by **Microsoft 365**, the world's productivity cloud, is a modern desktop. Shifting to a modern desktop improves productivity and security for users and streamlines work for IT professionals. A modern desktop is always up-to-date and uses insights and security powered by the cloud.

CAPABILITIES OF A MODERN DESKTOP:

- ✓ **Windows 10 deployment through Autopilot**
- ✓ **Latest version of Office 365 Pro Plus**
- ✓ **MS Teams**
- ✓ **Cloud management through MEM**
- ✓ **Cloud based application deployment**
- ✓ **Microsoft Advanced Threat Protection**
- ✓ **Azure Information Protection**
- ✓ **Conditional Access**

Benefits of a Modern Desktop according to Forrester:

- ✓ **20% improvement in IT administration time**
- ✓ **33% Reduction in security remediation cost and security risks**
- ✓ **75% improvement in boot time**
- ✓ **25% improvement in user productivity**
- ✓ **Quicker and easier deployment**
- ✓ **233% ROI and pay back in 14 months**

MOST PRODUCTIVE

Everything users love about the PC experience, enhanced by your phone and the cloud

MOST SECURE

Proactively protect users and the organization with cloud powered intelligent security

LOWEST TCO

Transform IT and reduce costs with agile updates and simplified management

CASE STUDY

UK based regulatory authority with over **600 users**.

THE PROBLEM

The regulatory authority had a large legacy estate with 2 hosted data centres where over 75% of the server estate was either out of support was about to be out of support within the next 18 months, a history of failing to decommission legacy solutions and services leading to an increase in the hosted infrastructure, a desktop estate nearing end of life.

THE SOLUTION

A modernization program to replace the hosted infrastructure with cloud-based solutions offering greater flexibility and support, use of SaaS and PaaS where possible, migration to Office 365 to reduce the hosted server estate, decommission legacy applications, archive data, and move to a modern productivity platform, upgrade the existing desktop estate with Windows 10 and cloud based management.

THE RESULT

A modern hybrid infrastructure that is reliable, flexible, supported, and able to deliver the solutions and services required of a modern business. A desktop estate that is well managed, always up to date and brings flexibility to the users working environment and an increase in productivity.
