WHAT IS M365?

Microsoft 365 empowers users with the latest innovation across new and familiar productivity experiences like Teams, Word, Excel, PowerPoint, Outlook, and Windows. Unlike other productivity services, Microsoft 365 learns from users and collects valuable insights through the Microsoft Graph to deliver enhanced experiences that continually get better over time and keep users protected. Microsoft 365 empowers organizations with the following capabilities:

PRODUCTIVITY AND TEAMWORK

Includes instant messaging and online meetings with Microsoft Teams, email and calendaring with Outlook, familiar Office apps on all devices, advanced file storage and sharing with OneDrive for Business, intranet and team sites, and enterprise social networks with Yammer.

BUSINESS MANAGEMENT

Includes simplified IT management with Microsoft Endpoint Manager, business process automation, extensibility with Teams and Power Platform, business voice and phone system with Teams, Forms and workflow management, business intelligence with Workplace Analytics, and work management with Project Online.

SECURITY AND COMPLIANCE

Includes solutions for identity and access management, information protection and governance, threat protection, security management, insider risk management, compliance management, and eDiscovery.

Why M365?

- ✓ ROI 123%
- ✓ BENEFITS PV £32.3 MILLION
- ✓ NPV £17.9 MILLION
- ✓ PAYBACK 10 MONTHS AFTER "GO LIVE"

Information workers save **100 minutes per week** due to improved collaboration and information sharing, specifically around co-authoring and reviewing documents.

Microsoft 365 reduces downtime by an average of **15.75 hours** annually for each user.

Information workers save **104 minutes** each week with improved online meetings.

By Year 3, online meetings replace **350 overnight trips**.

Self-help tools replace **75%** of the 7,500 password reset calls to the help desk.
