# **Kernel Outlook Attachment Extractor Screenshots**

### Extract Email Addresses

Here are the steps to extract email addresses from OST file, PST file and Outlook Profile using Kernel Outlook Attachment Extractor:

Step 1: Welcome screen of Kernel Outlook Attachment Extractor tool.

**Step 2:** Select the **Add Source** option to upload single/multiple offline OST and PST files at once.

Note- You can also add your Outlook profile along with OST and PST file with the **Add Outlook Profile** option for email address extraction.

Step 3: Select the source file(s) (OST/PST) and click Open.

**Step 4:** Click on any email to get a preview of it and click on the **Extract button**, then select Email Addresses.
