ABBYY

Turn your documents into data with pre-trained, ready-to-use skills

80%
of all business data is trapped in unstructured formats such as documents, emails, images, and PDFs

Source

95%
of businesses need to manage unstructured data

and

40%
need to do so regularly

Source

Reasons enterprises struggle to automate document processes:

⚠ Legacy systems are outdated/ complex

Niche products have limited focus/capabilities

Previous automation solutions can't scale

Intelligent document processing (IDP) is key to enterprise digital transformation strategy

ABBYY Vantage has the skills you need to add automated document processing to any process:

1 Upload your documents

2 Vantage identifies the skills you need

3 Connect to any system

4 Vantage keeps learning to make skills even smarter

Vantage uses AI to understand your documents in a fast and simple way

No-code / low-code, built for the citizen developer

Ready-to-use skills available for all document types in a digital marketplace

Built on ABBYY's machine learning and trained neural networks

Cloud-native, open architecture — microservices, REST APIs, containerized
