YOUR ROLE IN THE MIGRATION

To ensure a smooth process, we'll need a few things from you:

Pilot Group

Provide a small group of users for testing purposes.

DNS Changes

Communicate DNS updates to your ISP.

Large Mailboxes

If any mailboxes exceed 100GB, they need to be split before migration.

MFA Activation

Enable Multi-Factor Authentication in your Microsoft 365 environment.

LIMITATIONS TO KEEP IN MIND

While we cover most migration needs, there are a few things to consider:

- Calendar groups and dynamic distribution groups can't be migrated.
- Some data, like Skype meeting links and RSS feeds, may face limitations.
- Outlook Web Access favourites and auto-complete lists will not transfer.
