

4Sight

CORPORATE PROFILE

ABOUT 4SIGHT

4Sight Holdings Limited (4Sight) is a public company listed on the "JSE" AltX incorporated on 29 June 2017 in accordance with the laws of the Republic of Mauritius, specifically for the listing of the 4Sight Group on 19 October 2017.

As a multinational, diversified technology group, our purpose is to leverage our portfolio of Fourth Industrial Revolution (4IR) technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners, including both customers and technology vendors.

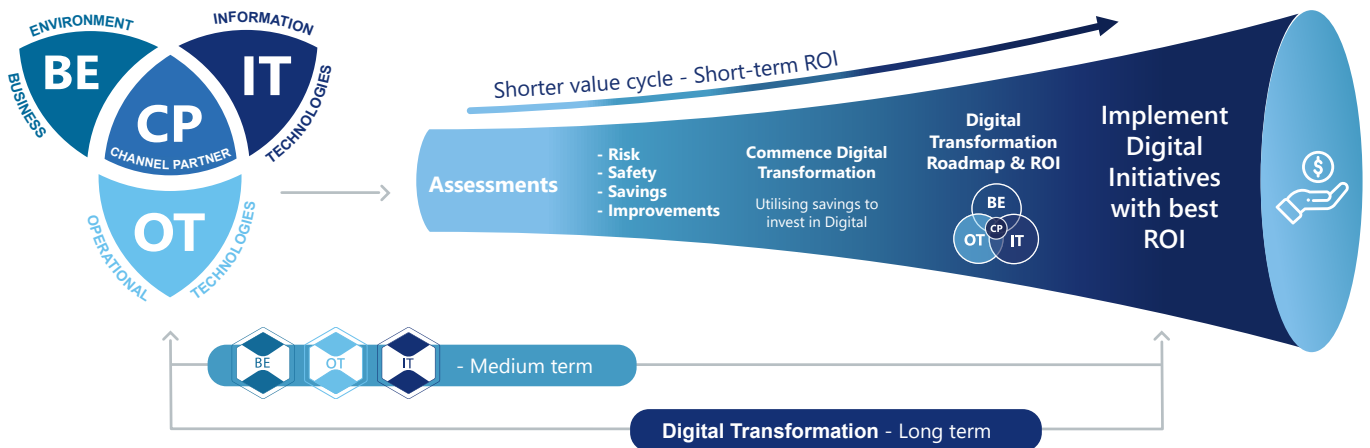

We accelerate our partners' digital journey, with an approach that enables an organisation-wide transformation.

Our approach enables data and new technologies to amplify an organisation's workforce to thrive in the modern digital economy. Digital AI Transformation is a journey that any organisation undertakes and is not something that happens overnight. We assist our customers and partners first to understand where they currently are on this journey and then how to progress with the correct technology applied to the next levels.

"4Sight is the digital AI transformation partner to quantum leap your business into the realm of Enterprise 5.0"

DIGITAL AI TRANSFORMATION APPROACH

OUR BUSINESS MODEL

Our business model enables our partners to take advantage of products and solutions within our group, which will allow them to enjoy turnkey digital transformation solutions across industry verticals. This business model is supported by a focused 'blue ocean' strategy comprising:

Continuous Innovation

Fostering Partnerships

Managing the move to OPEX models

Unique Bespoke Business Solutions

Building the Modern Digital Enterprise of the Future (Enterprise 5.0)

Embracing the Modern Digital Economy

Software-as-a-service (SAAS) and Annuity Business Models

SOFTWARE VENDOR

CHANNEL PARTNER

4Sight's 100% partner-focused ecosystem, distributing and supporting AI solutions on behalf of international software vendors including Microsoft, Sage as well as a wide range of vertical and horizontal ISV applications

WHY 4SIGHT?

4Sight focuses on a cross-section of established, new, and emerging technologies. These include artificial intelligence (AI) solutions with machine learning, big data, cloud and business intelligence solutions, digital twins and simulation, information and operational technologies, production scheduling, horizontal and vertical integration, industrial Internet of things, cloud service provider, robotic process automation, and augmented and virtual reality solutions.

These 4IR technologies manifest in the various solutions we deliver to customers across all industries in both the private and public sectors.

It is not only these 4IR technologies that will take us forward, into the future. We do not lose sight of focusing on the foundational principles, where we still need to implement solid, internal control procedures and specialise in our information technology proficiency that was historically the core of our business.

We will continue to maintain the values and create that same level of confidence around internal control measures and corporate governance for our customers. At the end of the day, that is where business is really measured – in delivering and securing that future.

OUR OPPORTUNITY

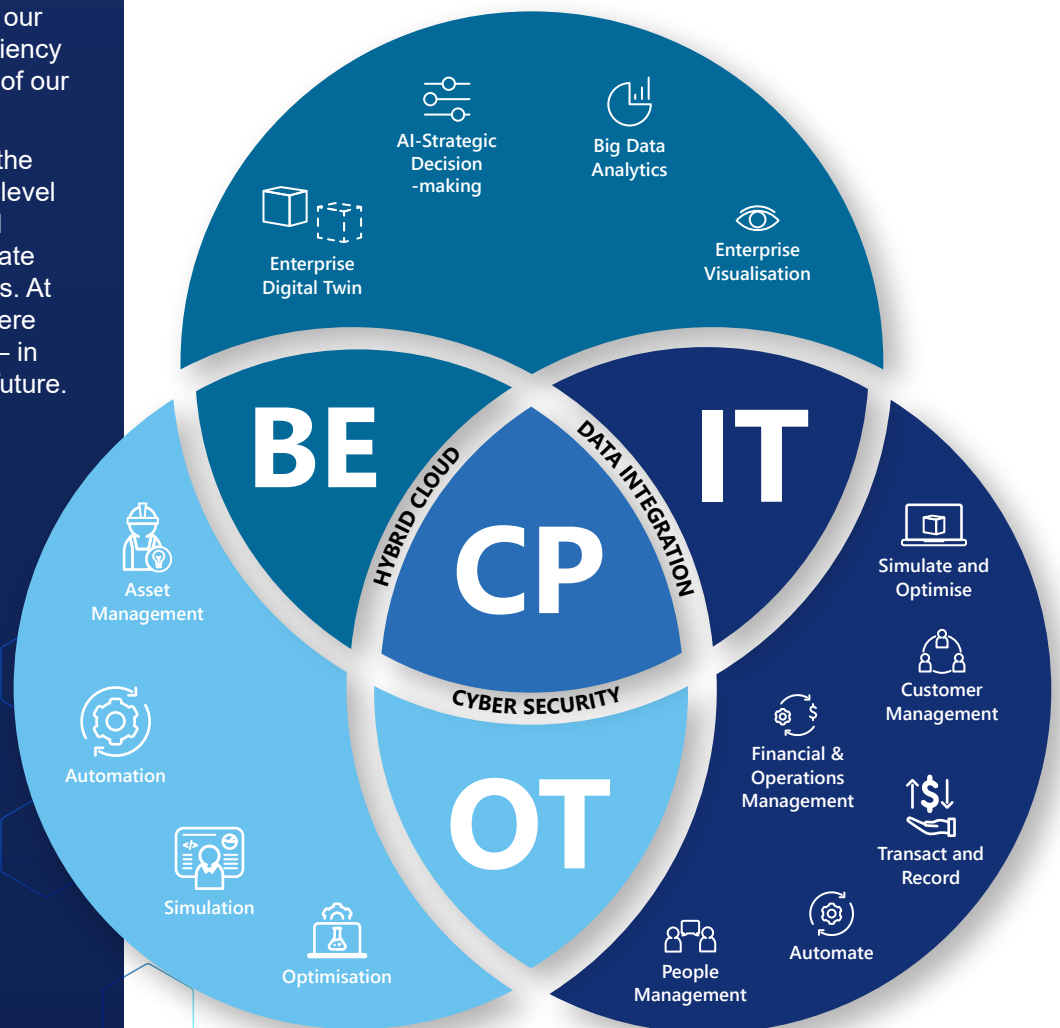

We believe that the rate of adoption of 4IR, people and data-focused solutions will grow exponentially, which is why we have positioned our business to be ready with the best solutions to empower our partners now and into the future.

Our mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the modern digital economy.

At the heart of our ability to meet the Fourth Industrial Revolution's demands lies our team of passionate and dedicated technology, engineering, financial and business experts.

By leveraging the vast pool of intellectual property that resides within our Group, we help our partners create smarter operations, build new products, create new disruptive models and guide them through the digital transformation process.

We have the necessary skills and expertise to support business digitisation at every stage of the transformation process, from sourcing and manufacturing to distribution and consumption.

OUR APPROACH

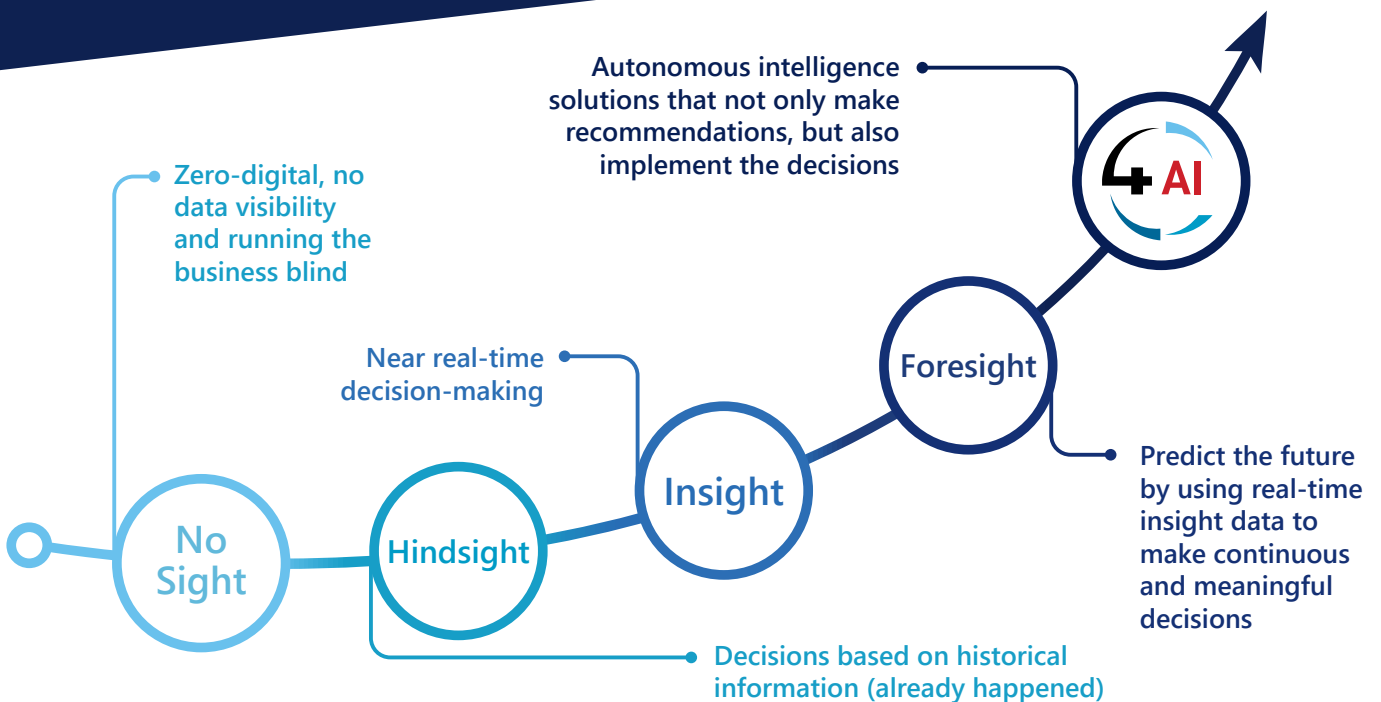

Our frameworks empower our partners to future-proof their business through digital acceleration, focusing on people and data-centric journeys. We achieve this using hybrid cloud technologies combined with the foresight data to make better, more informed decisions.

Through our approach, we are able to take our partners on a journey from “no-sight” (zero-digital, no

data visibility and running the business blind) to “foresight”. That is, the ability to predict the future using real-time “insight” data and technologies like ML, AI and digital twin, to make continuous and meaningful decisions based on what will happen.

Our end goal remains to transition our customers into the realm

of “4Sight”, using autonomous intelligence solutions where the technology not only makes recommendations but also implements the decisions to maximise business profitability, efficiency and minimise risk.

OUR PARTNERS

Partnerships with key vendors enable us to bring our own leading solutions (built on our own substantial IP) coupled with best in breed 4IR solutions, to our customers across our various markets and verticals. Strategic partners include:

Incorporated in 2017, 4Sight is a JSE AltX (ticker: 4SI) listed, multinational, diversified technology group. Our purpose is to leverage our extensive product and services portfolio, focused on 4IR technologies, people and data-focused solutions to design,

develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the

modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey digital transformation solutions across industry verticals.
