Active AI: Academy, for developers

Unlock the future of development with our Active AI Academy—a comprehensive crash course designed to elevate your developers into proficient AI-developers. Spanning six intensive sessions, this course will immerse your team in the most relevant Microsoft AI technologies and best practices.

What You'll Learn:

- Azure OpenAI: Learn the power of Azure's AI capabilities to build intelligent applications.
- RAG (Retrieval-Augmented Generation): Enhance your data retrieval processes with cutting-edge techniques.
- Document Intelligence: Automate and optimize document processing with AI.
- AI Search: Implement advanced search functionalities to improve user experience.
- Prompt Engineering: Master the art of crafting effective prompts for AI models.
- Semantic Kernel: Understand and utilize semantic technologies for better data interpretation.
- Azure Machine Learning: Develop and deploy machine learning models with Azure's robust platform.
- Sound/Vision, Speech + Text, Vision: Explore AI applications in multimedia, including sound, vision, and text processing.
- Content Moderation: Ensure safe and appropriate content with AI-driven moderation tools.
- ML Ops: Streamline your machine learning operations for efficiency and scalability.
- Ethics & Governance: Learn the critical aspects of AI ethics and governance to responsibly manage AI projects.

Active AI: Academy, for developers

Why Choose Active AI Academy?

- **Expert-Led Training:** Learn from industry experts who bring real-world experience and insights.
- **Hands-On Learning:** Engage in practical exercises that reinforce theoretical knowledge with real-world applications.
- **Comprehensive Curriculum:** Cover all essential AI technologies and practices to ensure a well-rounded education.
- **Future-Proof Skills:** Equip your team with the skills needed to stay ahead in the rapidly evolving AI landscape.

Active AI: Academy, for developers
