

Unlock the Power of Digital Health.

Actuvi is a digital health platform that creates a digital extension of your clinic, utilizing automated tools to make remote care convenient and easy for both patients and health professionals.

The Actuvi Advantage

Break Down Traditional Data Silos

Actuvi allows you to collect patient-reported experiences, patient-reported outcomes, and patient health data from multiple apps, devices, and software, all charted and aggregated on one platform, breaking down traditional data silos.

Comprehensive Care Coordination

Actuvi facilitates seamless care coordination and collaboration among healthcare teams, ensuring continuity of care and improved patient outcomes.

Expert Support

Benefit from dedicated customer support, training resources, and ongoing updates and enhancements to maximize your experience with Actuvi.

Interoperability

Actuvi offers seamless interoperability, integrating with existing Electronic Health Record (EHR) systems and other healthcare applications, ensuring data exchange and collaboration across platforms.

Data Security and Compliance

Actuvi prioritizes data security and compliance with HIPAA regulations, safeguarding patient information and maintaining trust in the digital healthcare environment.

Add digital access to your care

Give your patients a mobile app for easy access to your practice. We will help you build your custom assessments and provide templates. You can organize different assessments, put them into monitoring tracks, and assign patients to different tracks.

Keep your patients engaged

Actuvi enables you to offer personalized care plans and engage patients through automated medication reminders, daily monitoring notifications, telehealth, and digital communication tools.

Automate back-office operations

Your digital clinic automates your workflow by notifying you of patient health irregularities and significant health updates/changes.

Integrate patient data

Actuvi's HIPAA-compliant platform integrates data from multiple health/fitness apps, medical devices, and software to create your digital clinic.

Add an extra layer of revenue

Add recurring revenue model or an additional tier of care to your patients.

Easy to scale

Actuvi is designed to grow with your practice, whether you are looking to expand or maintain a capped patient
