

Project Management & Timesheets - 4Wk Implementation

This is the right service for you, if you are using Business Central for core Financials already or if you combine it with our 8 week implementation offering.

Business Central Core Financials are the foundation to run your business. To fully gain value out of the ERP system we offer this package for organisations who want to leverage of the Project Management, Project Costing, Resource Management and Time sheeting capabilities of Business Central on top of the FMIS functionality.

Whether you offer professional services which you run as projects to your customer base or if you are running internal projects to calculate cost and capitalise those into your asset base - Business Centrals project module will provide you with all functionality to cover the full business process. Our team is highly experienced implementing these modules in the private and public sector.
