Business Systems Professionals

**FAST TRACK BC IMPLEMENTATION**

**Get up and running with world-class ERP in  
under 3 weeks for only \$10k**

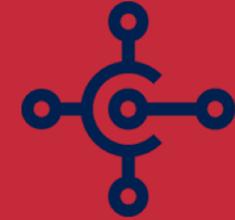

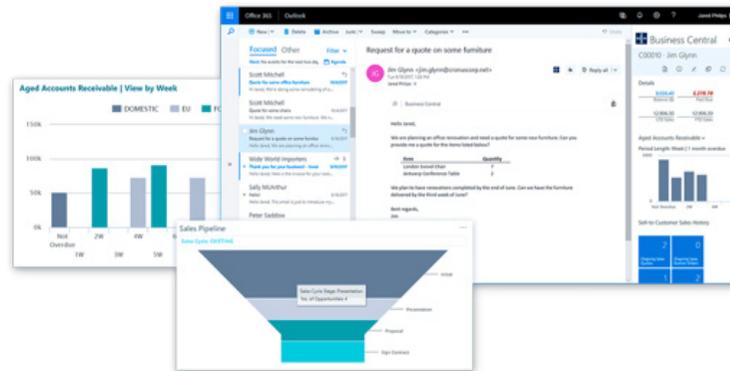

## Get Microsoft Dynamics 365 Business Central implemented fast with:

- **First-class Training:** 3-day training
- **Sensational Support:** 12 hours of testing support
- **Go-Live support:** 1 day of support at Go-Live and also a half day during your first month-end
- **Project Management throughout the project**

To really gain value out of your ERP implementation, you need to get the foundations right. We offer out the box configurations to set up YOUR business. You will get the best of both worlds – a proven implementation experience from highly skilled consultants paired with technology and templates that enable us to get you going quickly and cost-effectively.

Let's face it! You don't look at Dynamics 365 Business Central to just run your accounts. You are here because you have outgrown your spreadsheets and simpler accounting package, or it has just come to the end of its life. **You are in need of a system that supports all aspects of your business!**

We will supply you with **simplified templates and training** and also the **assistance** required to get the data right and to set up the system and **import opening balances**. We believe this is critical to ensure you are **set up for success**.

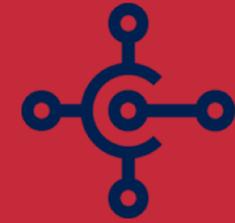

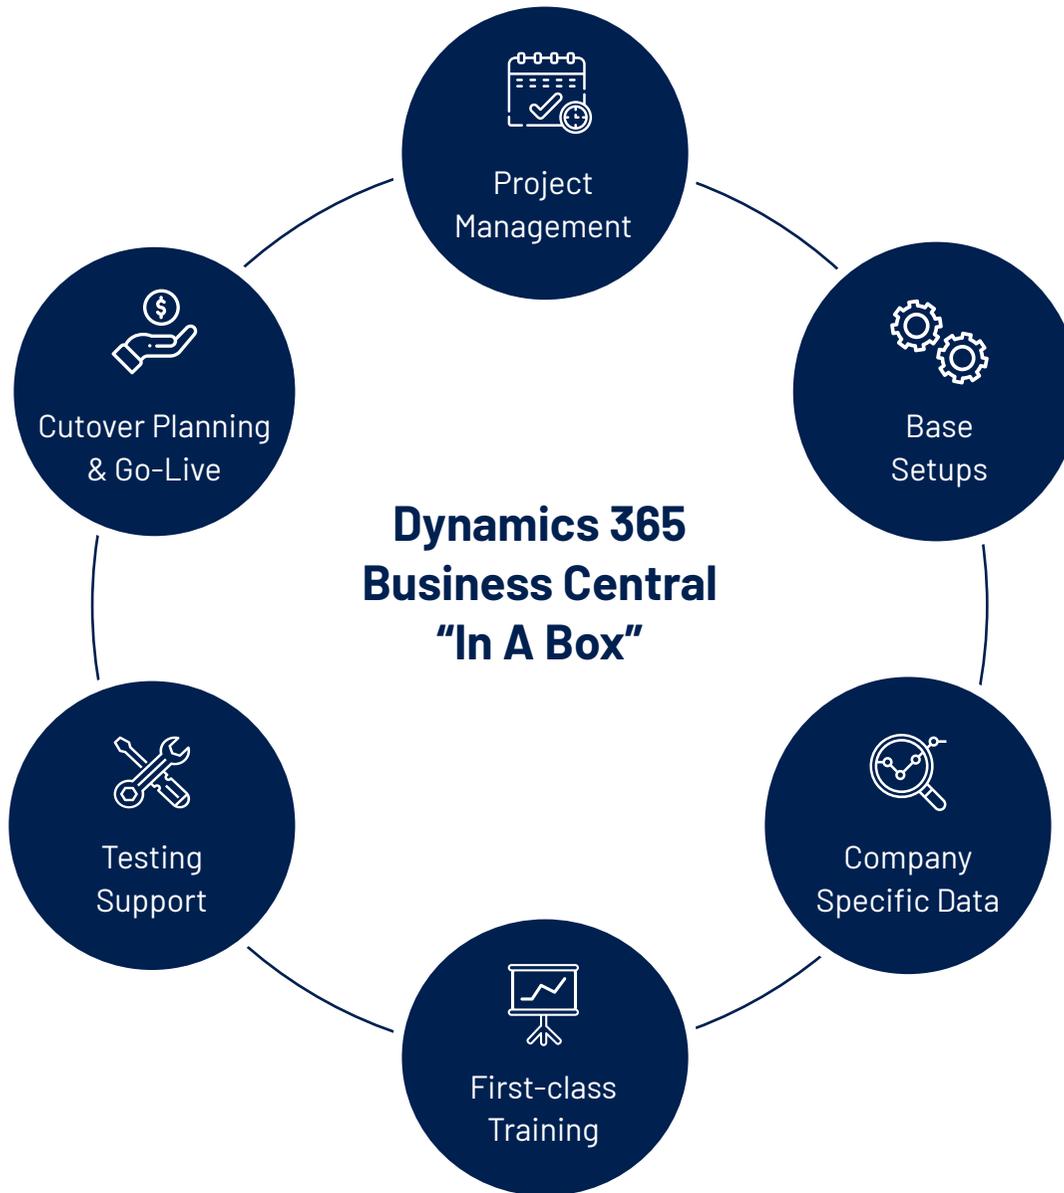

**Get Microsoft Dynamics 365 Business Central implemented fast!**

**We assist you through the implementation process with a focus to get you up and running quickly and enable your team to gain knowledge within a few weeks.**

**Our templated approach allows for a smooth go-live as well as cost-effective project.**

- **An easy to implement out-the-box Business Central Offering**
- **A Fixed Cost at NZD \$10,000**
- **Low Risk implementation**
- **Preconfigured functionality**
- **Step-by-Step assistance**
- **Great Return on Investment**

**Connect your  
business**

**Make smarter  
decisions**

**Start and  
grow easily**

## 4

## 5 Testing Support

- Getting the best out of your system means you will need to test it against your business processes. After the training sessions, you will need to carry out User Acceptance Testing
- We will provide you with 12 hours of testing support to ensure your users build confidence with their new system
- Part of this testing also involves processing Bank Statement uploads, testing EFT Payment files and checking opening balances
- Spot any changes that need to be done to your Master Data during this testing? Go ahead and make the changes. We will ensure these transfer to your Live Environment.

## 6 Cutover Planning and Go-Live

- Go-Live can be daunting so don't worry, we will guide you through the process and ensure your users are supported at Go-Live
- As part of the Fast Track offering you will get 1 day of support at Go-Live and also a half day during your first month end.

## Project Management

7

- We will help you manage your action points and team activities using leading Project Management Software.
- Your team will have full access to the project board and you can invite team members and let them own their individual tasks
- We will also provide you with a Project Manager that will ensure your implementation is kept on track and your project is a success!
