

Reclaim full control of your tenancy by liberating it from GoDaddy and other third-party providers.

About True.org Cloud:

True.org Cloud, a company that has been a Microsoft gold partner and reseller for the past 18 years. Our mission is to assist SMBs and Mid-Market Clients in achieving significant value for their financial, operational, and end-to-end business process integrations.

What we offer

True.org Cloud offers the complete Microsoft experience, backed by skilled professionals and cutting-edge tools, empowering you to break free from third-party constraints on your tenancy. Whether you require seamless user management, program installations, or access to your admin portal, we guarantee you the necessary and permanent access.

Traditionally, customers were faced with a difficult choice: endure complex migrations to an Office 365 mailbox, moving it multiple times, or remain tied to a third-party with limited access despite paying higher premiums for services.

What our customers are saying

"Regain full control over your tenant, eliminating the need to rely on your service provider for management tasks. Once you remove the third-party presence and partner with True.org Cloud as your CSP, you unlock access to our comprehensive offerings."
