

## Envision what your future in project based manufacturing looks like

**Our experts are here to help you solve key challenges such as:**

- *Do you always have up to date visibility on your inventory & project inventory?*
- *Are you able to start procurement of long lead time items part of a partially engineered BOM?*
- *Does your project operations data automatically flow into the financial statements?*
- *Do you have real-time insights in project progress, supply chain & financials?*
- *Do you have a cross department BOM management?*

### Is your digital thread in place?

Organizations need a digital thread to be able to work more efficient and to be ready for the future. Establishing a digital thread connecting all data that flows through your organization. is a challenge in project based manufacturing companies.

In this new reality, how do you envision the future state of your organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

### Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design led thinking concepts and jointly define how to enable the digital transformation of your organization.

This one-day briefing starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable picture of how we can help you reach your business goals.

### How 9altitudes can help

9altitudes has been implementing digitalization projects for project based manufacturing companies for over 20 years. Our team of specialists can also prepare organizations in industrial equipment & machinery, aerospace & defense for digital innovation.

# What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.

## Inspire

Imagine a future state solution for your business

➤ Envisioning Workshop

## Design

Discover what's possible by aligning technology investments to business goals

➤ Business Value & Solution Assessment

## Empower

Empower others in your organization to see the value

➤ Solution Demonstration

## Achieve

Achieve business outcomes and improved customer experiences

➤ Transformation Plan

# Project Based Manufacturing

Our specialist are ready to envision a future proof platform, using our project based manufacturing solution, based on the Microsoft Dynamics 365 Finance, the Dynamics 365 Supply Chain Management and the Dynamics 365 Field Service apps, which enables the digital thread in industrial equipment & machinery, aerospace & defense project based manufacturing companies. 9altitudes is expert and keeps focusing on helping organisations to realize the digital thread, a need for moving into setting up digital twins, artificial intelligence on top of it. This way we connect different departments and different disciplines and let the data flow through the different applications typically present in those departments, going from engineering to manufacturing and field service teams.
