Get ready to achieve more with Microsoft Teams with this 100% funded workshop from CloudAssist

As the hub for teamwork, Microsoft Teams is designed to help organizations improve collaboration and increase efficiency by automating key business processes. With the **Teams Apps and Solutions Workshop**, **CloudAssist** will work with you to identify ways to improve workplace productivity, leveraging the Microsoft Teams platform.

See what's possible

Learn what the Teams platform can do for your organization. Our consultants will walk you through the art of the possible, working with you to identify and prioritize key business scenarios to help solve your specific collaboration challenges. During the workshop, we'll show how opportunities to customize and extend your Teams workspace using the power of automation. Then, **CloudAssist** will design a plan that leverages the Teams platform capabilities to help you move forward.

Realize better business results with improved automation

Drive business results through scenarios for increased productivity	**Accelerate outcomes** with ready-to-use apps, plug and play accelerators, and solution options	**Enable app governance** through guidance on governing Teams apps using policies and controls

Why CloudAssist?

With extensive solution development experience, **CloudAssist** can help you improve your workforce productivity through the automation of key business processes, leveraging the Teams platform. We will work with you to understand your environment and identify opportunities to help you achieve continuous business value from your Teams investment. With industry and technology experience, you can count on us as your trusted partner in your digital transformation journey. **CloudAssist** is a certified Microsoft ACM (Adoption & Change Management) partner who assists Enterprises to achieve more with Microsoft Teams. This assistance aligns directly to your business goals while getting the most from your investment in Microsoft Teams.

We'll work with you to:

✓ Identify and prioritize key use case scenarios using Klaxoon in Microsoft Teams for design thinking meetings

✓ Explore opportunities to streamline business processes and improve productivity outcomes for your teams

✓ Provide an implementation plan and next steps to help you achieve your desired goals for assisted teamwork
