

MVP Databricks with Azure

Empower your data, drive your growth: fast-track analytics with Adaptiv's Azure Databricks MVP/Proof of Concept.

"Adaptiv's culture of engagement and professionalism, their deep knowledge, and willingness to offer advice and beyond, have been a hallmark of our relationship over the years. The trust and respect we have for Adaptiv is built on their legacy of outstanding delivery for PlaceMakers." - Mark Phillips, GM of Technology for the Distribution and Concrete Divisions, Fletcher Building Group

What is this offer about?

Adaptiv's MVP for Databricks on Azure is a bespoke solution that rapidly provisions essential analytics infrastructure in the cloud. Designed for businesses seeking to initiate or enhance their data capabilities, our offer includes setting up Databricks, constructing data pipelines, and laying the foundation for advanced analytics. This streamlined package is perfect for companies seeking to minimise risk and investment while preparing for scalable growth in data analytics and machine learning.

Ideal customer profile

Challenge 1: Complex Analytics Initiation for new projects

- ▶ Customers often grapple with the intricacies of starting their analytics journey, facing the challenge of setting up a comprehensive analytics platform from scratch without prior infrastructure or expertise.

Challenge 2: Resource-Intensive Legacy System Migration

- ▶ Organisations looking to migrate from traditional, on-premises data and analytics solutions to Azure contend with the complexity and resource demands of transferring to a more flexible and modern data analytics solution.

Challenge 3: Cost-Efficiency and Performance Balance in Scalable Analytics:

- ▶ Companies aiming to scale their analytics capabilities or streamline their services require a solution that balances cost-efficiency with high technical performance, without compromising on quality or future growth potential.

AT A GLANCE

COST EST: Est. \$30,000 (Potential partial Funding through Microsoft Assisted Funding (Field Led))

DELIVERABLES:

- ▶ Workshop Summaries
- ▶ A fully configured Databricks environment on Azure, tailored to your specific requirements.
- ▶ Seamless data pipeline build to support robust analytics workflows.
- ▶ A unified data platform designed for adaptability to your unique business goals and cost structure.
- ▶ Empowerment with fundamental analytics tools for enhanced business intelligence and decision-making.

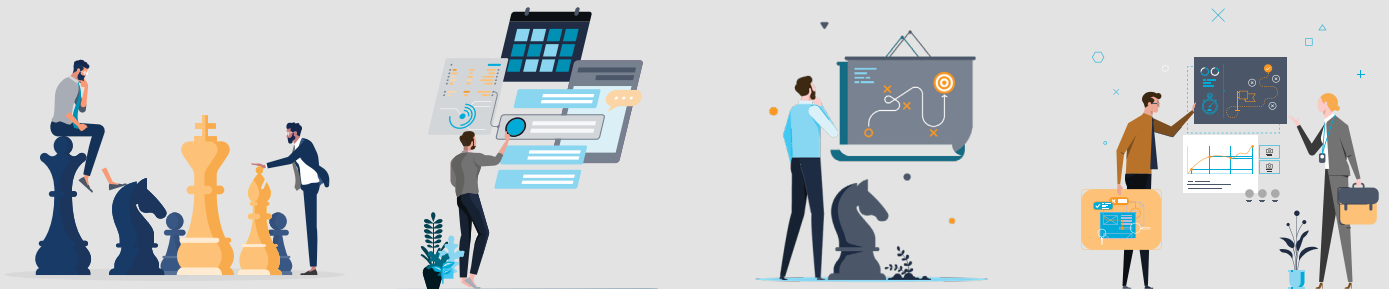

BENEFITS:

- ▶ Risk reduction: Mitigation of deployment risks through a structured, phased approach that ensures reliability and security.
- ▶ Time to value: Accelerated time-to-insight with a pre-configured environment that enables quicker decision-making.
- ▶ Cost savings: A cost-optimised analytics solution that scales with your business, ensuring you only pay for what you need when you need it.

TIME TO VALUE: Est. 1-2 weeks

Adaptiv's Engagement Model

Our engagement model for the Databricks MVP with Azure is intricately woven with Microsoft's Cloud Adoption Framework, ensuring a comprehensive and efficient approach to harnessing Databricks analytics capabilities.

01

STRATEGY WORKSHOP

Strategy Workshop: Define business goals, identify technical requirements, and establish a clear roadmap for the MVP implementation.

02

PLAN & READY

Plan and Ready: Develop a detailed plan for the MVP, ensuring all resources and teams are aligned and ready for the setup and deployment.

03

IMPLEMENT & LAUNCH

Implement and Launch: Execute the plan to provision the Databricks environment, build data pipelines and enable basic analytics capabilities.

04

GOVERN & MANAGE

Govern and Manage: Provide continuous support to ensure the solution is governed properly and evolves with your business needs.

Adaptiv provides world-class integration, consulting and execution, and data and analytics services.

Our expertise has helped some of the largest enterprises seamlessly transition to cloud or hybrid environments & integrate their systems, delivering clear and measurable value to their bottom line.
