# Adastra 2 - 2 - 4 Offer: Microsoft Fabric

## A MICROSOFT FABRIC PARTNER YOU CAN TRUST

**Microsoft Fabric is transforming analytics, by delivering enterprise scale capability through a simplified SaaS service, and by accelerating and empowering all analytic personas. Fabric is positioned for an OpenAI future, by enabling generative analytics on your data stored anywhere. Through this proposal, Adastra will build a Microsoft Fabric PoC or MVP solution, to prove and launch Fabric as an end to end analytic enabler in your organization. Adastra will also demonstrate how OpenAI accelerates analytics thru Fabric.**

- Scope
  - Identify and define requirements for the analytic use case
  - Onboard Microsoft Fabric in your tenant
  - Build data acquisition pipelines to land and standardize data
  - Build data curation pipelines to transform and integrate data
  - Build BI model(s) and BI report(s) to enable analyst data insights from data
  - Perform end to end testing and validation with stakeholders
  - Perform knowledge transfer and provide solution design / operation documentation
