ADASTRA

The cloud for modern data warehouse
Data Analytics in Azure

The cloud for modern data warehouse

Is your existing datacenter contract expiring? Do you need to refresh your existing software or hardware? Do you need to increase compute capacity very urgent? All these questions are triggers to think about migration of your existing infrastructure to the cloud.

17 %

Gartner Forecasts Worldwide Public Cloud Revenue to Grow 17% in 2020.

24 %

IaaS is forecast to grow 24% year over year, which is the highest growth rate across all market segments.

60 %

By 2022, up to 60% of organizations will use an external service provider's cloud managed service offering, which is double the percentage of organizations from 2018.

Adastra enables greater Azure success, return on investment, by facilitating the customer's end-to-end Azure experience, deploying customer aligned Azure solutions, and enabling customers through their Azure journey.

Adastra, as a Microsoft Cloud Solution Provider partner, is the point of contact for customer Azure needs, and is at the center of the customer, Azure cloud relationship.

Our offering:

/ Trusted Advisor - Right advice at right time, deeper understanding of customer's challenges and business strategy.

/ Provisioning - Directly provision subscriptions and manage services through portals.

/ Support - Support that knows your solutions and business ensuring business continuity.

/ Value-added Services - Strategy, planning, budgeting, execution, consulting and training services.

/ Billing - Simplified billing for all services.

/ Managed Services - Able to manage customer's subscriptions across services and 3rd-party applications in addition to Azure services.
