Shaping the future with
Microsoft M365 Copilot

Microsoft 365 Copilot Workshop

Unlock the potential of artificial intelligence within your organization with the Microsoft 365 Copilot Workshop. This transformative three-phase engagement is meticulously designed to guide you through assessing your needs, exploring the art of the possible, and building a strategic plan for seamless integration.

1

Assess: Unveiling the Possibilities

•Introduce the workshop, outlining technical prerequisites for Microsoft 365 Copilot.
•Identify key stakeholders and delve into critical business scenarios.

1.**Introduction to Microsoft 365 Copilot:**
   1. Overview of the workshop and its objectives.
   2. Technical requirements and becoming AI-ready.
2.**Readiness Assessment:**
   1. Researching customer challenges and opportunities.
   2. Microsoft 365 pre-engagement kickoff.
3.**Guidance and Roadmap:**
   1. Reviewing assessment outcomes and delivering actionable guidance.
   2. Preparing for the upcoming Art of the Possible workshop.

2

Art of the Possible: Transforming Experiences

•Showcase the infusion of intelligence into employee experiences through demos.
•Educate and excite your organization about the possibilities of Microsoft 365 Copilot.

1.**AI-powered Organization:**
   1. Understanding the impact of AI on organizational dynamics.
   2. Exploring responsible AI practices.
2.**Demos and Presentations:**
   1. Unleashing creativity through AI.
   2. Unlocking productivity and upleveling skills.
3.**Integration with Teams Premium:**
   1. Exploring synergies between Teams Premium and Copilot in Teams.
   2. Defining Microsoft 365 Copilot personas.

3

Build the Plan: Crafting Your AI Roadmap

•Develop a strategic plan based on prioritized scenarios to implement Microsoft 365 Copilot.
•Summarize customer challenges and map them to personas.

1.**Identifying Scenarios:**
   1. Pinpointing pain points in business decisions.
   2. Discovering personas and linking them to business challenges.
2.**Prioritization and Planning:**
   1. Summarizing prioritized scenarios for Copilot implementation.
3.**Piloting Microsoft 365 Copilot:**
   1. Outlining the steps to initiate the pilot phase.
   2. Defining timelines for implementation.
