

# Azure Optimization Workshop

**Duration: 1 Week**

**Technology for your digital transformation**

The Cloud has fundamentally changed the way organizations are doing business.

Have you purchased Azure through an EA or through Microsoft Directly. If so, chances are you are paying 50% than you need too. Many customers don't understand how to size Azure environments and are frustrated with the cost. Our Azure Optimization Workshop is designed to measure and discover what you have, create a plan to optimize and then implement a cost reduction and optimization strategy. We focus on the following:

**Azure Tennant  
Optimization**

**Workload  
assessment**

**Azure budget  
considerations**

**Azure Security  
and Policies**

Our experts will consult with your team to get a picture of where you stand today and create a plan for tomorrow. **It's critical to evaluate your current state in order to build a roadmap towards your future goals.**

## Drive ROI from your technology investments!

Duration: 1 Week

**Azure Optimization  
workshop  
\$4,000**

### Workshop agenda:

- Business strategy and tech alignment
- Security and Policy Discovery
- Infrastructure planning and strategy
- Run optimization script
- Cloud Migration Plan
