

Accelerating your cloud journey

Most Extensive Network

Fiber Optic Nationwide

> 160,000 km.

Most NIX Bandwidth

> 2.9 Tbps

International Bandwidth

> 1.2 Tbps

With YoY Fastest Growth

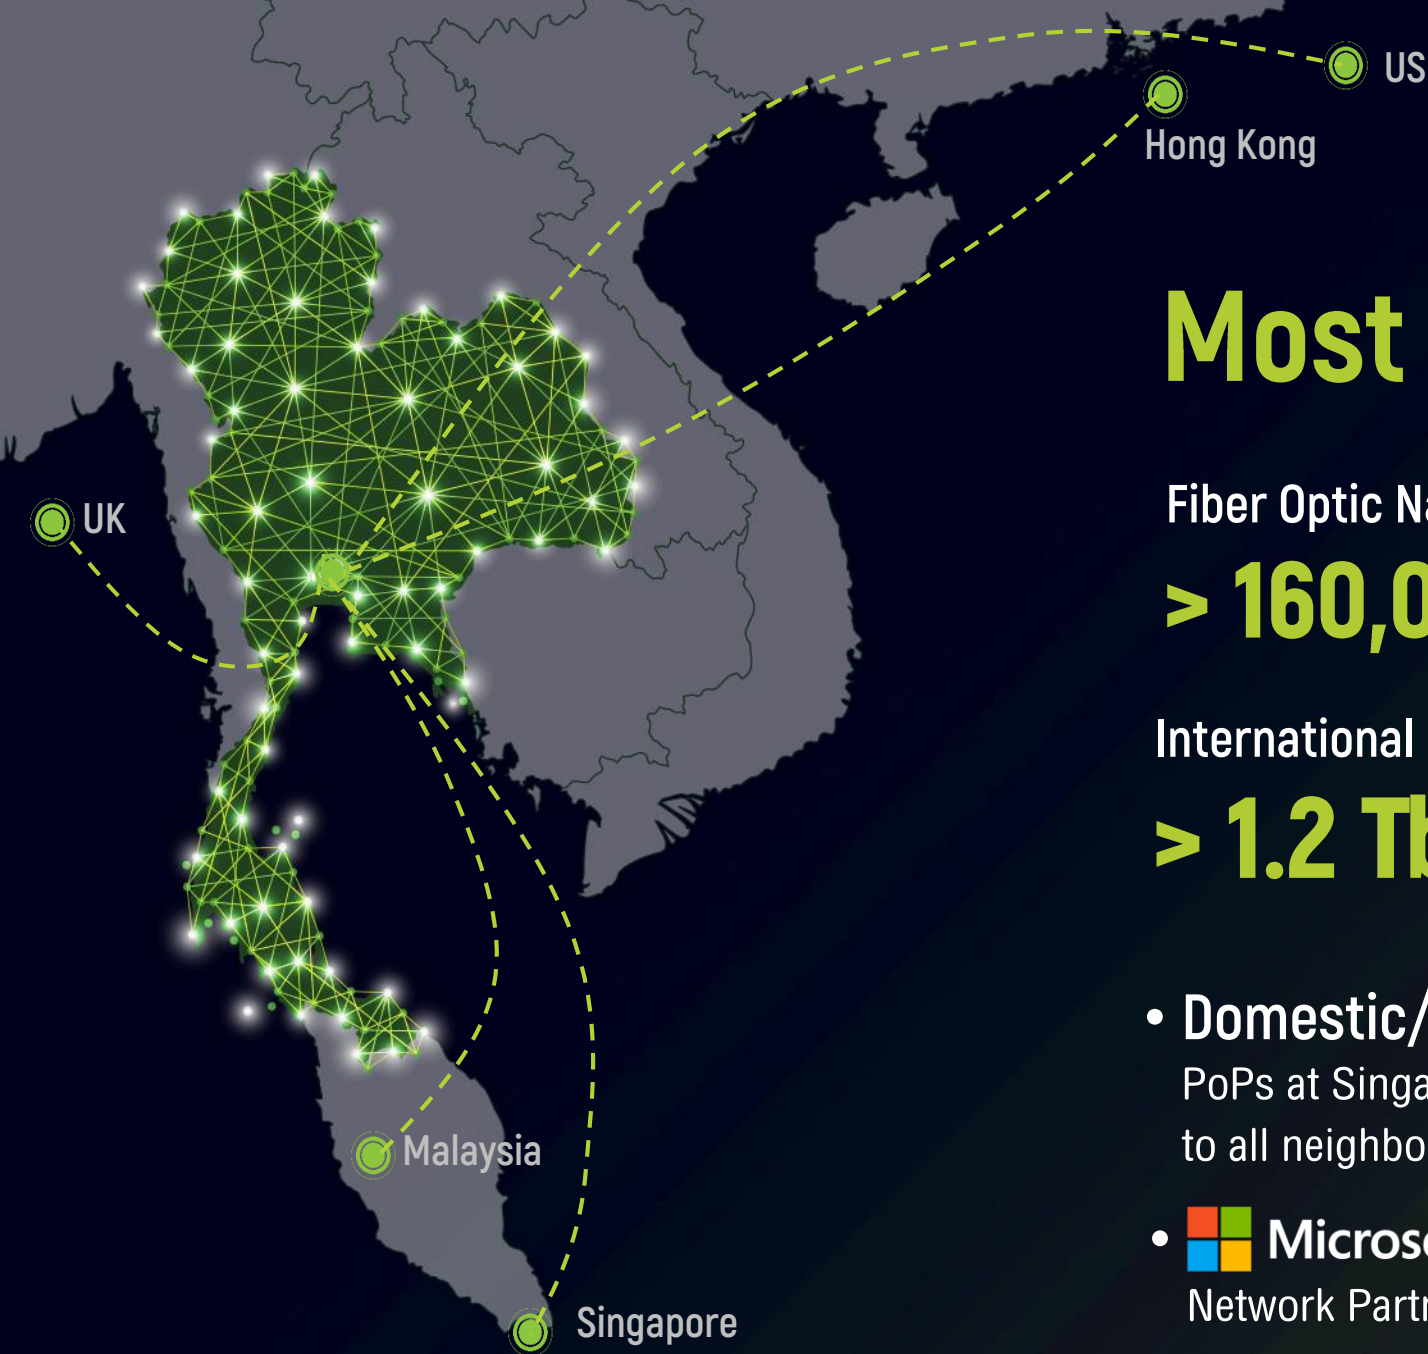

> 60 %

- **Domestic/International Data Circuit**

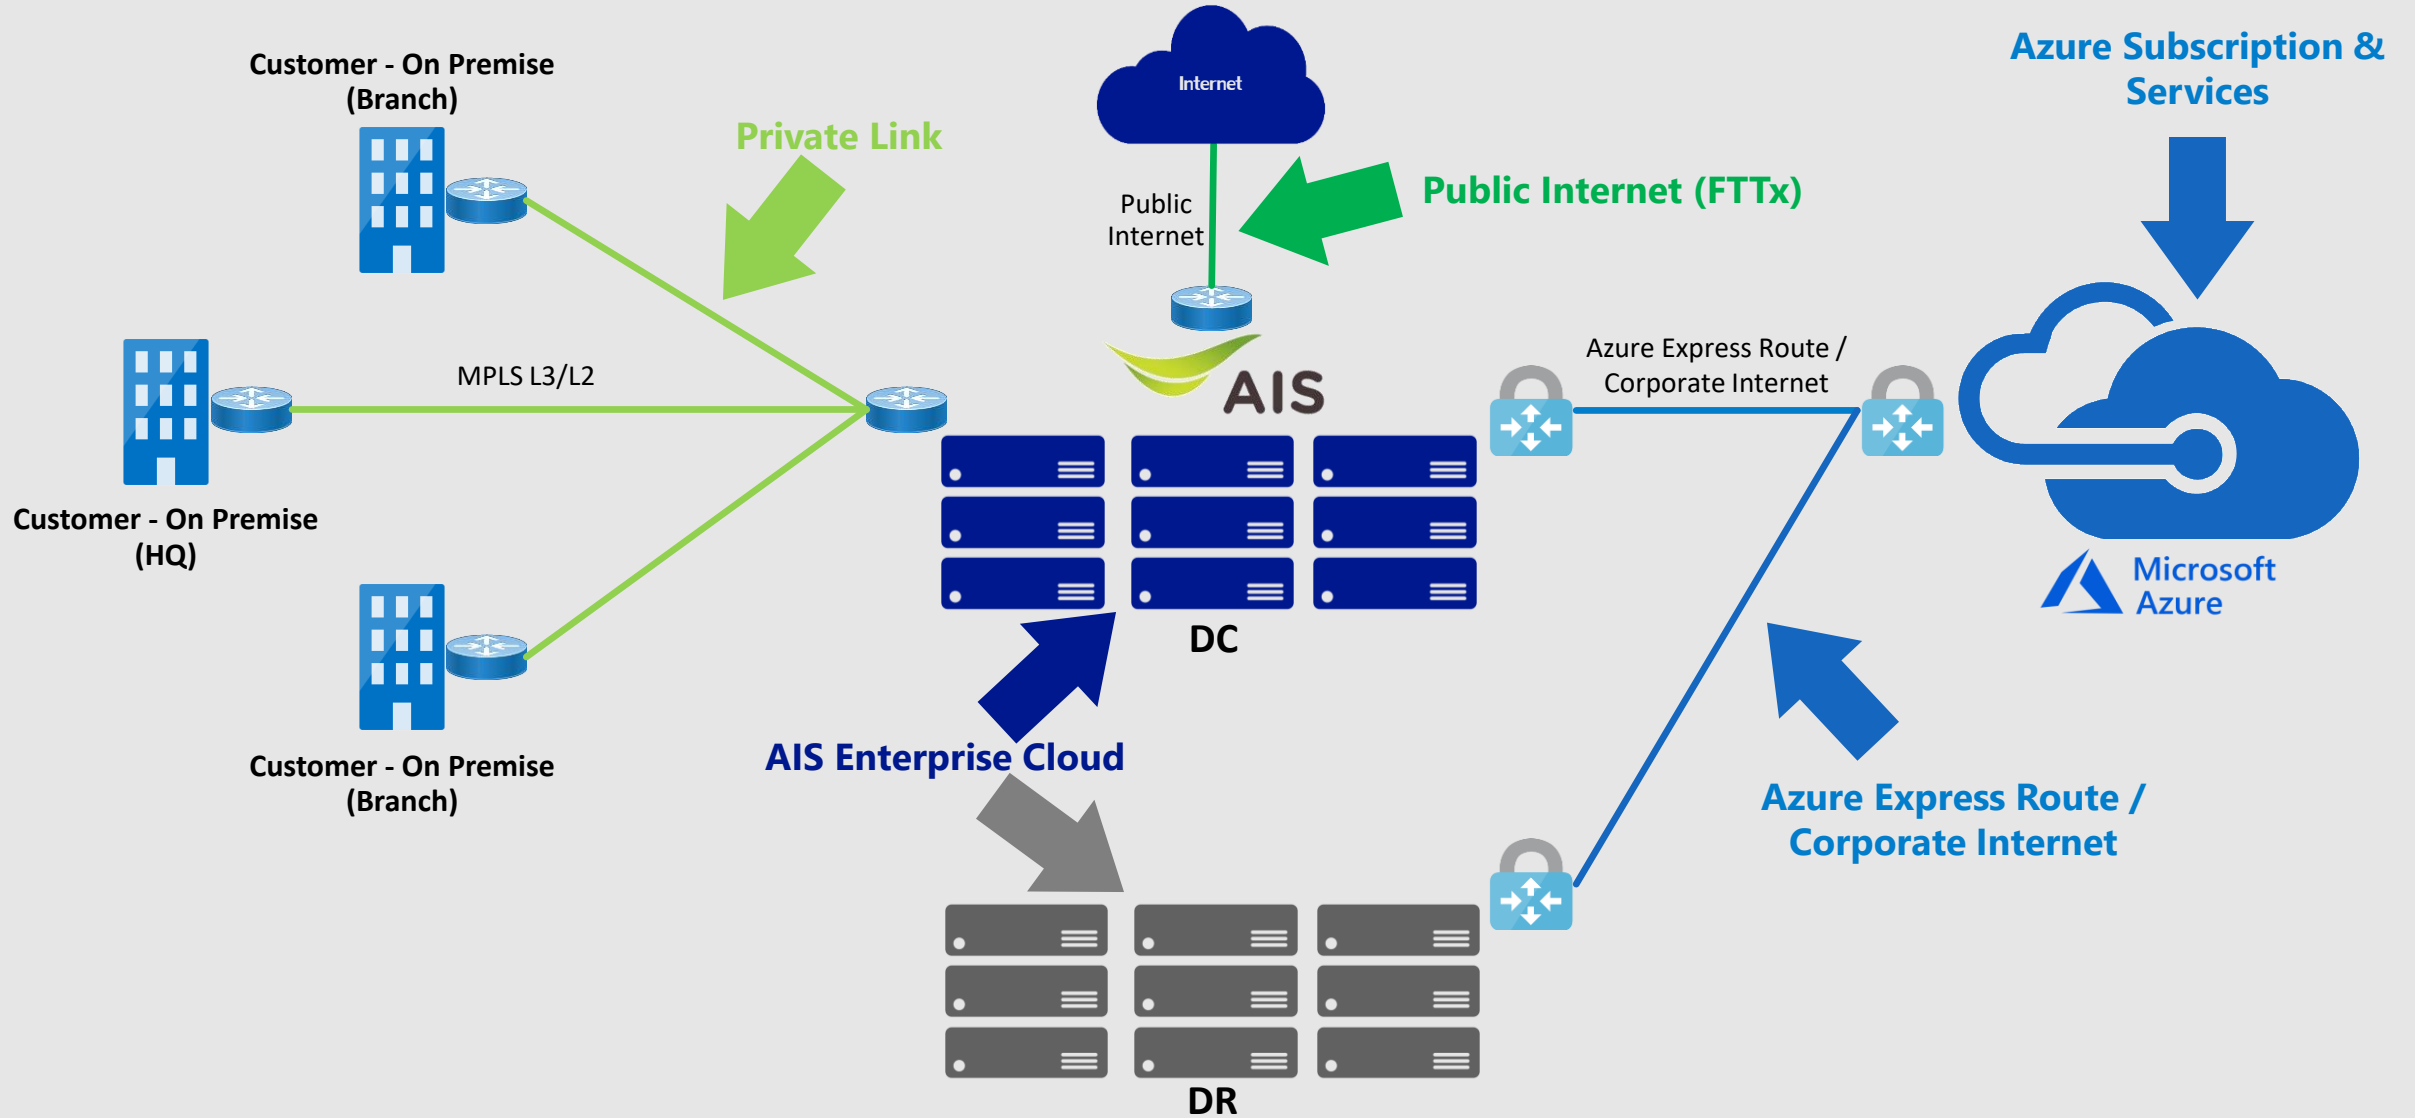

PoPs at Singapore, Hong Kong, Malaysia, UK and US with Gateways to all neighbor countries

-  **Microsoft Edge Node on AIS**

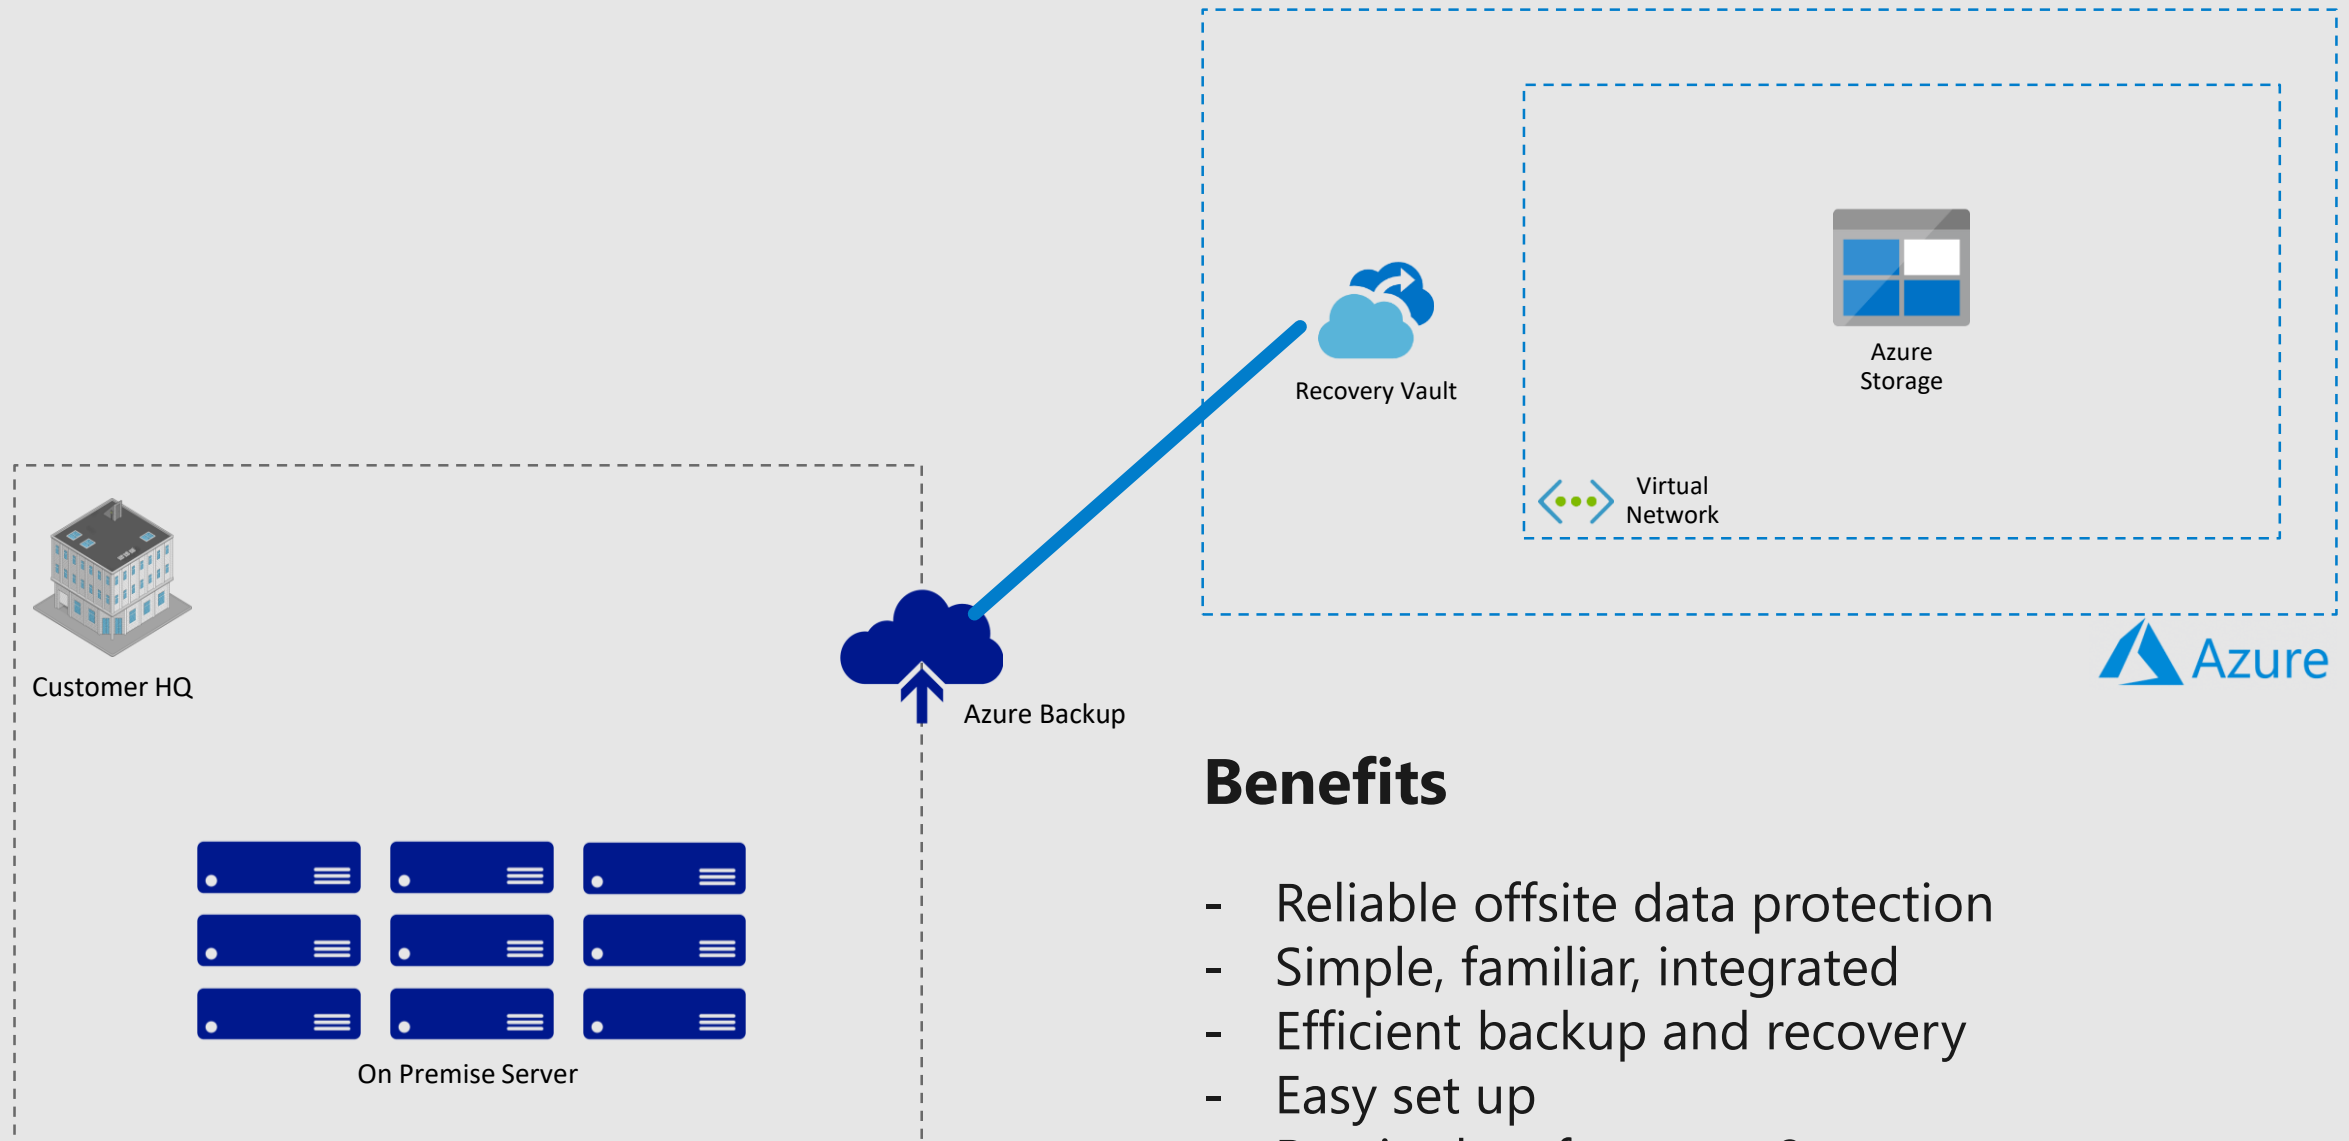

Network Partnership for Microsoft Cloud Services

Microsoft Azure – Total solutions by AIS

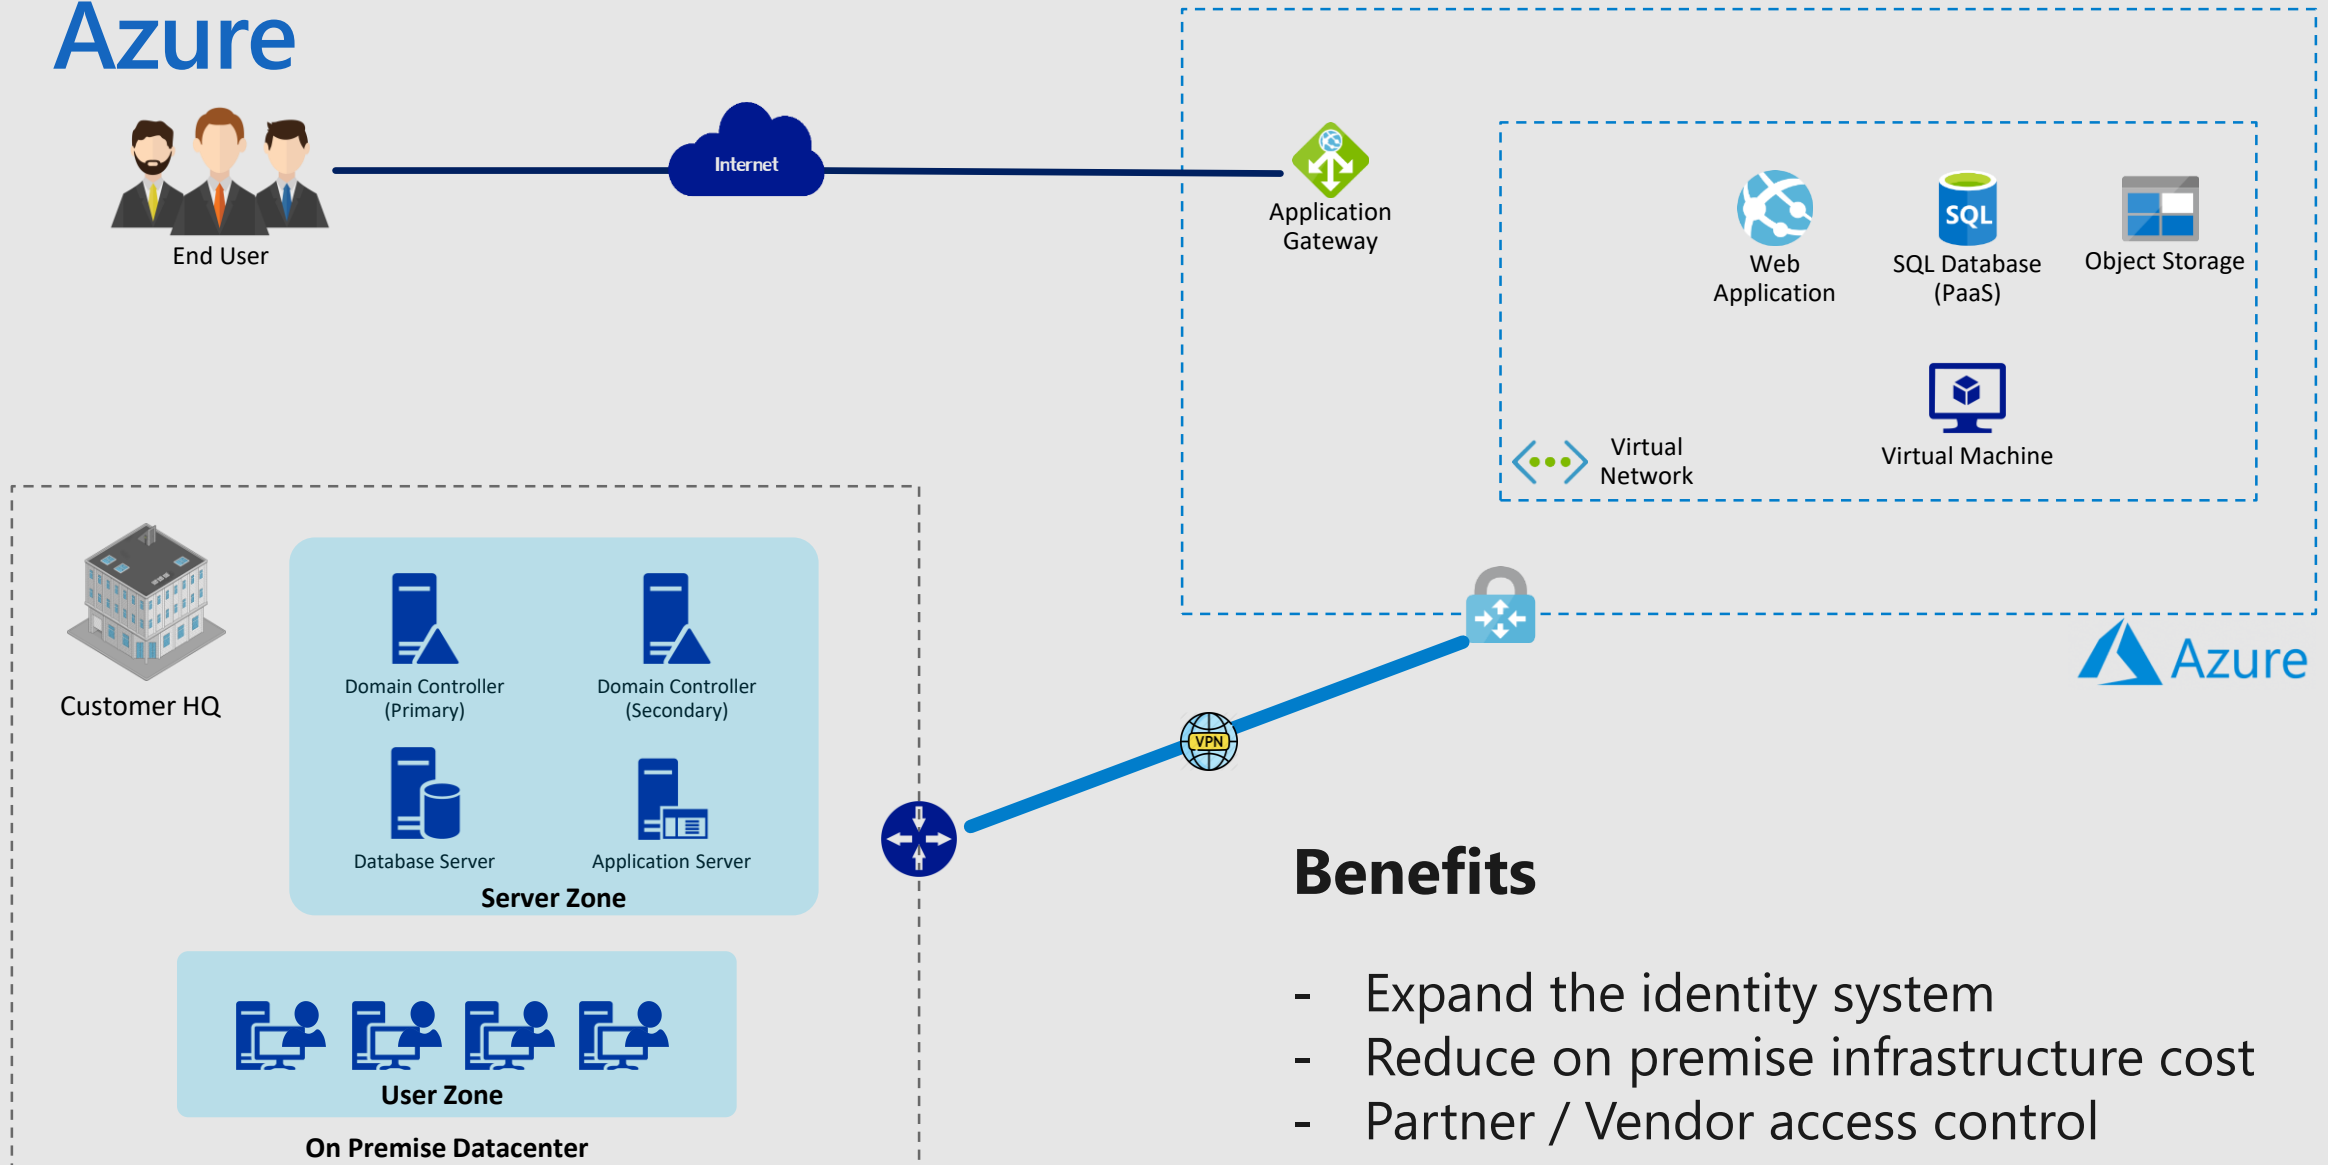

Solution 1 : Azure Backup

Benefits

- Reliable offsite data protection
- Simple, familiar, integrated
- Efficient backup and recovery
- Easy set up
- Retain data for up to 9 years

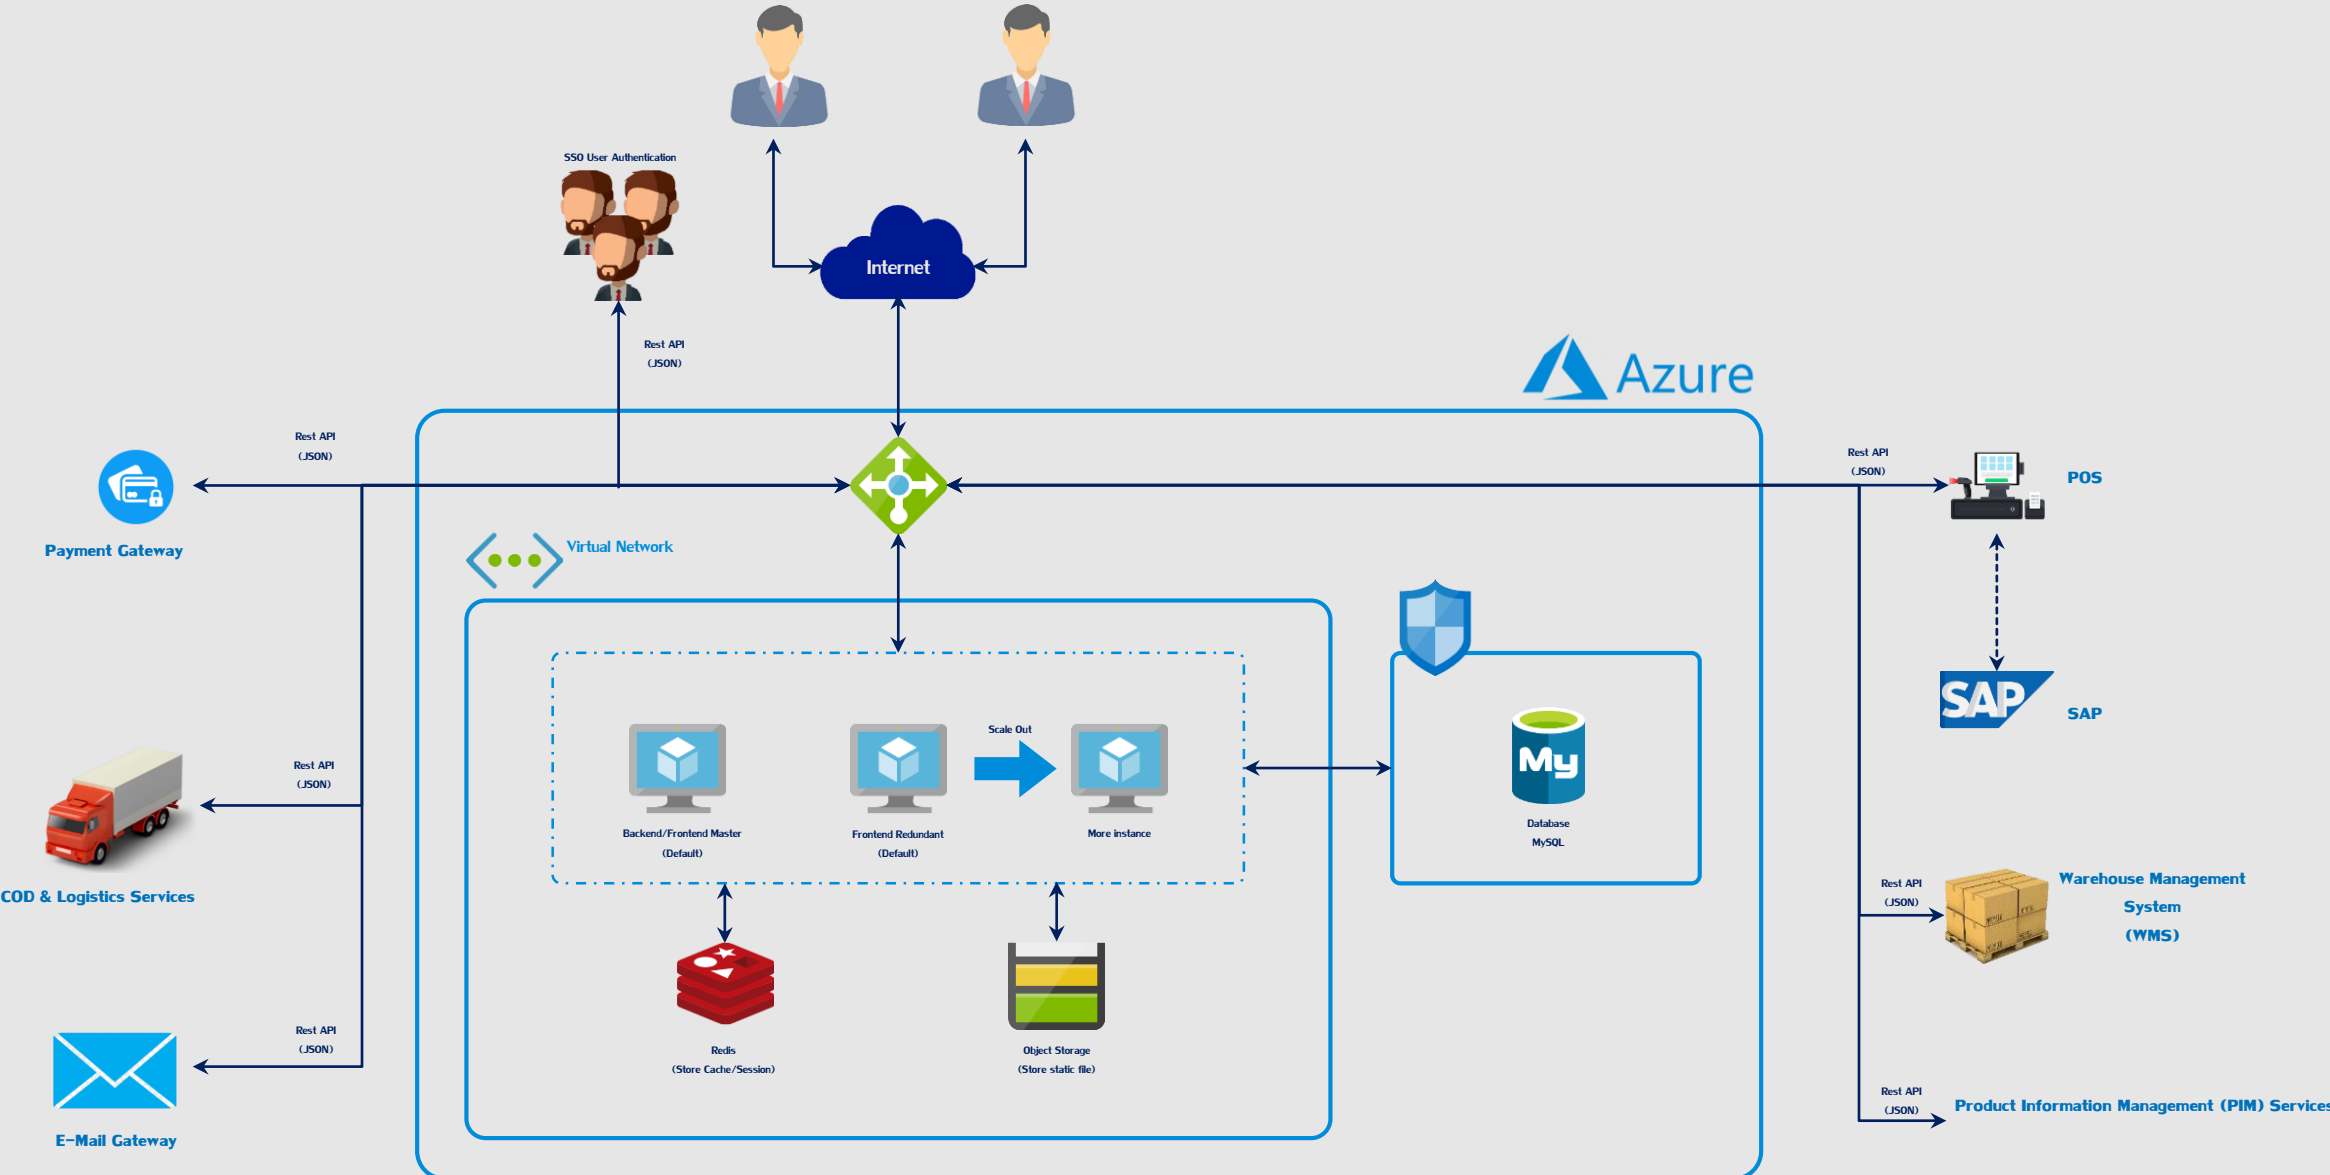

Solution 2 : HR / Backoffice System on Azure

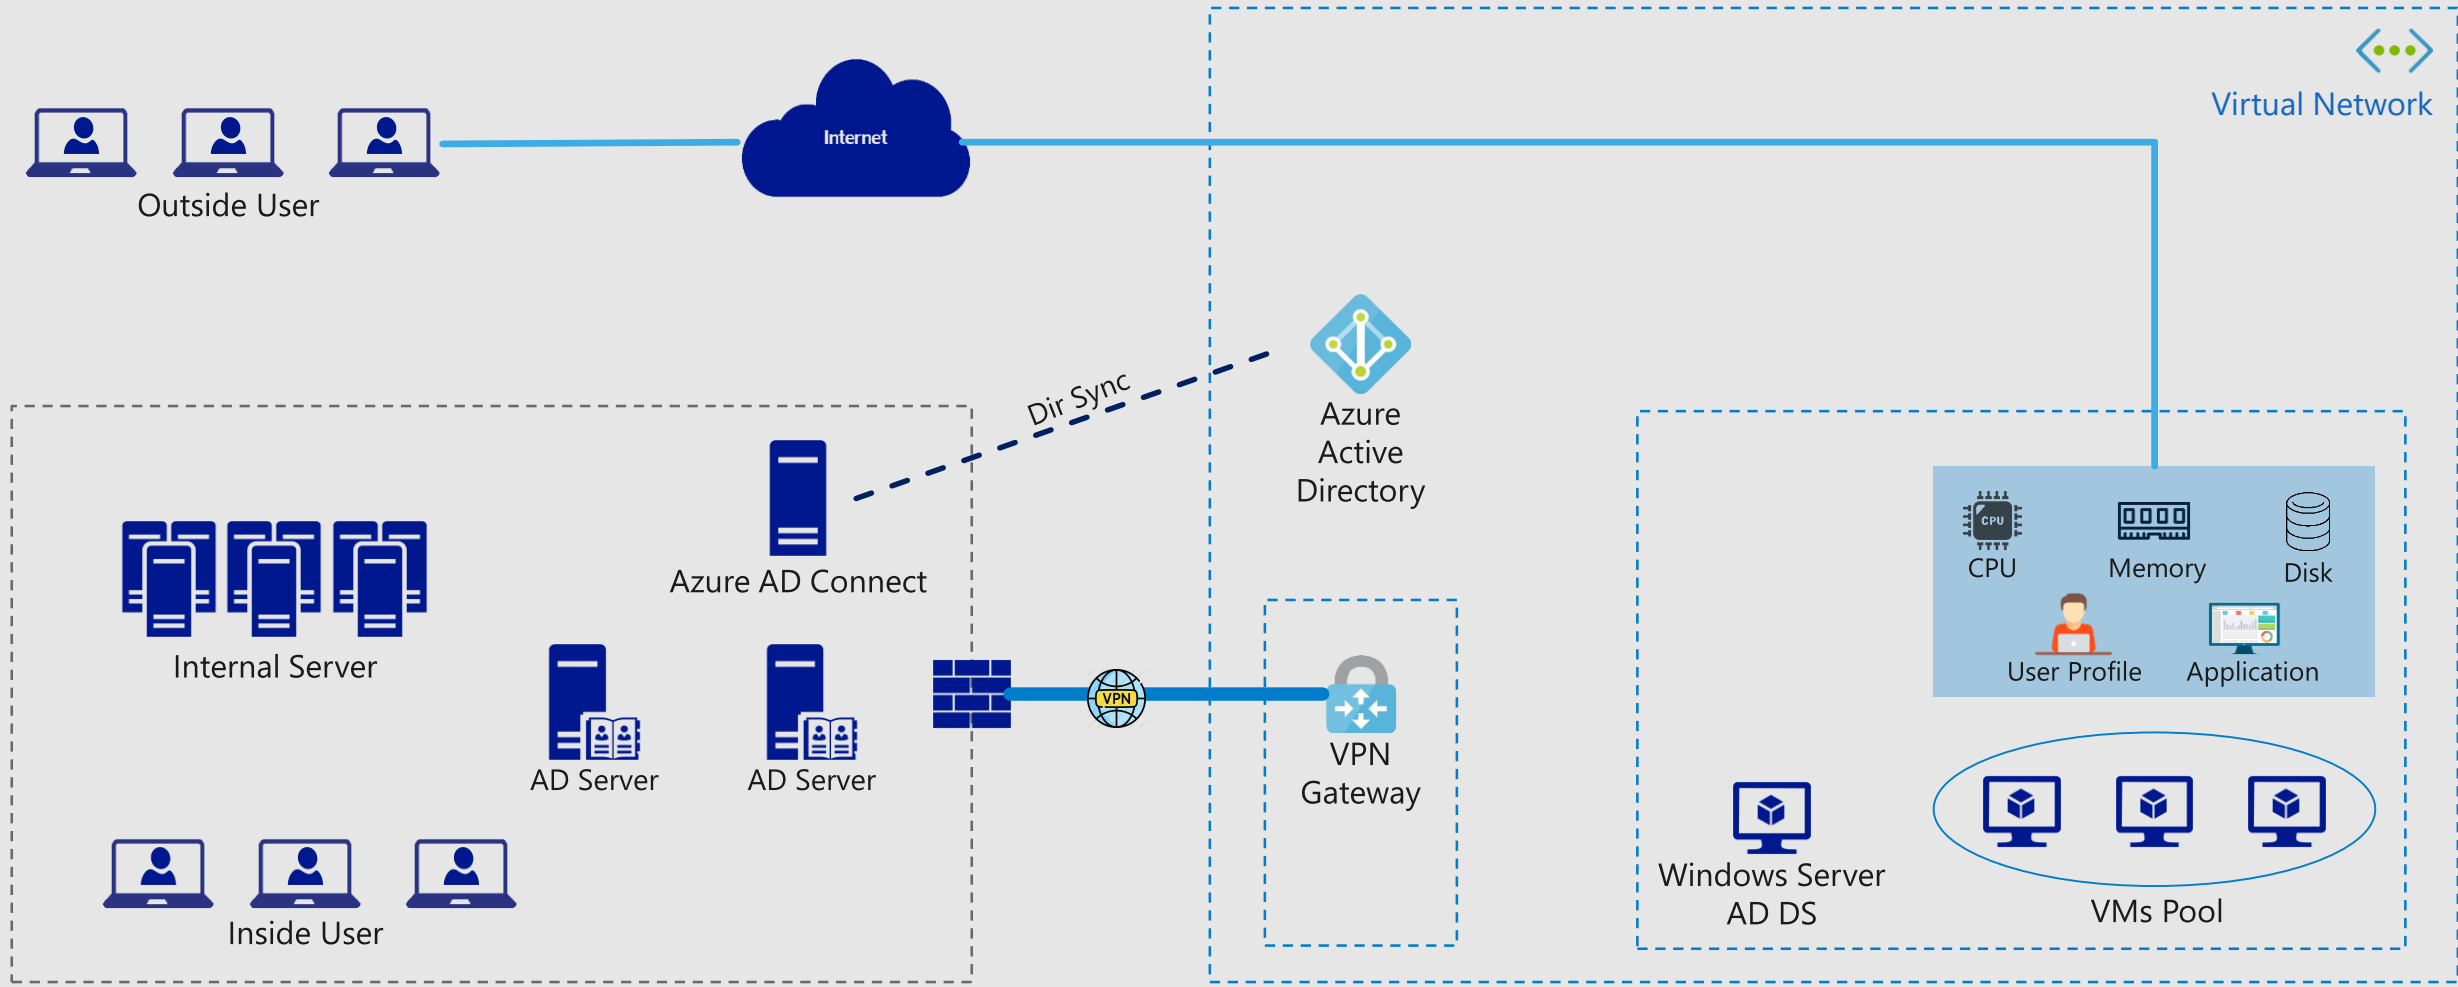

Benefits

- Expand the identity system
- Reduce on premise infrastructure cost
- Partner / Vendor access control

Solution 3 : e-Commerce Platform

Solution 4 : Windows Virtual Desktop

Demo : Accessing to WVD

User can login to WVD through any web browser, any platform

The image shows a Microsoft sign-in page. At the top left is the Microsoft logo. Below it, the text "Sign in" is displayed. A text input field contains the email address "xxxx@ais.co.th". Below the input field is a blue button labeled "Next". Underneath the button is a link that says "Can't access your account?".

Estimate spending until date

Have a visibility over Azure consumption by **subscription** and **resource group**. So you can optimize Azure to save your cost as much as possible. Moreover, Historical usage is available to view as well.

Azure Spending Notification

Set your own alert threshold

User can set their own threshold up to **3 thresholds**, and when consumption reach each threshold, the notification email will be sent to your email. Therefore, you won't be suffered from bill shock!

Monthly Budget *	\$	100	
Info Threshold *		30	%
Warn Threshold *		50	%
Error Threshold *		70	%
Danger Threshold *		90	%
Notification Recipients	[redacted]@ais.co.th		

Azure Audit log

Azure event audit log

Intensive **audit log** allows you to review what going on in your Azure environment
