# MULTI-CLOUD MANAGEMENT PLATFORM

Azure Arc is a bridge that extends the Azure platform to help you build application and service with the flexibility to run across datacenters, at the edge, and in Multi Cloud environments. Develop cloud-native applications with a consistent development, operation, and security model. Azure Arc runs on both new and existing hardware, virtualization and Kubernetes platforms, IoT devices and integrated systems.

**Microsoft**  **AIS Business 5G** Your Trusted Smart Digital Partner

## The First Service Provider who can deliver End-to-End Microsoft Edge Ecosystem

### Innovation anywhere with Azure

AZURE

## Single control pane with Azure Arc
