

# ADVANCING ANALYTICS

## Limited-Time AI Proof of Concept Offer!

Transform your business with cutting-edge AI – for as little as £6k!

AI isn't just for the tech giants – it's for you. And we're making it easier than ever to see real results, fast. Our time-limited Proof of Concept (PoC) packages let you explore the power of Machine Learning, MLOps, or Generative AI without the long-term commitment.

**Offer ends 31st March – don't miss out!**

Choose your PoC:

### Machine Learning PoC

**Duration:** 2 weeks (£6,000) or 4 weeks (£12,000)

**Outcome:**

A fully functional Machine Learning model tailored to your data, uncovering hidden trends and powering better business decisions. No fluff, just real, actionable insights.

### MLOps PoC

**Duration:** 4 weeks (£12,000)

**Outcome:**

Enterprise-ready CI/CD framework built on Databricks, supercharging your ML workflows with Azure DevOps or GitHub Actions.

Take your ML models from lab to production with confidence.

### Generative AI PoC

**Duration:** 2 weeks (£6,000) or 4 weeks (£12,000)

**Outcome (Choose from):**

- Document Chatbot – Interact with files like never before.
- SQL Data Assistant – Talk to your data, get instant insights.
- Agentic AI Chatbot – Make AI work seamlessly for your business.

## What You Get

### A working solution –

Not just a concept, but a functional AI model.

### Proven ROI –

AI that delivers real, measurable value.

### Clear documentation –

So you can use and maintain your solution with ease.

## What People Say

“Working with Advancing Analytics GenAI consultants was a game-changer for our organisation.

Their expertise in AI and analytics helped us successfully implement a generative AI-based feedback assessment solution that has significantly improved the learning experience for our students.”

Head of Curriculum Development

## The Fine Print (But in Plain English):

### Data Ready?

You'll need to provide clean, consolidated data upfront. Flat files or Databricks preferred.

### PII?

Any personal data should be anonymised if required.

### Timeframes:

Simple models? 2 weeks. Complex AI or big data? Likely 4 weeks.

### Generative AI:

Pre-configured Azure OpenAI, ready to roll.

### Databricks Users:

No extra setup needed – we'll hit the ground running.

**Act Fast! Offer valid until 31st March.  
First come, first served!**

## Why Choose AI with Advancing Analytics?

We don't just talk AI – we **build it, deploy it**, and make it work for **real businesses** like yours. Our team of AI experts, data scientists, and engineers cut through the hype to deliver AI solutions that drive real impact.

As **Databricks Elite Partners**, we help businesses automate workflows, uncover insights, and scale AI responsibly. From selecting the right tools to seamless integration, we ensure your AI investment delivers maximum value.
