

Support Your Provider Base with Documentation Workflows to Suit Any Practice

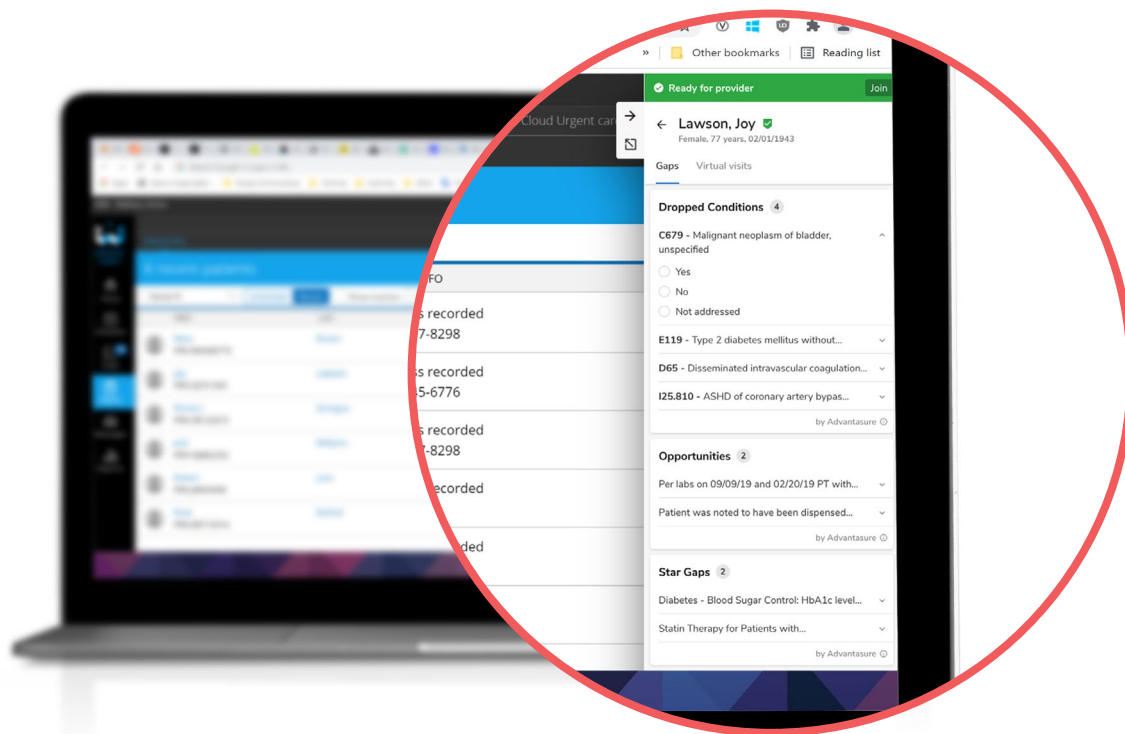

EMR Integrated CDI Alerts

Health Plans enjoy improved risk score accuracy and Star measures when their provider base participates in proactively closing care gaps and main-taining compliant record documentation. Traditionally, these activities in-crease the workload on providers who are already spread thin. That's why the Advantasure solution seamlessly integrates with most EMRs, using au-tomation to guide providers into documentation workflows with actionable insights that are unique to each patient at the point of care.

Maintain Compliant Records

CDI alerts are built into the provider's existing EMR to ensure all member conditions are accurately and completely documented while closing quality gaps at the point of care.

Improve Outcomes

Make it easy for your providers so together you can raise the standard of care and improve HEDIS measures, Star ratings, risk score accuracy, and reduce RADV risk.

Gain Insights With Analytics

Monitor key metrics at the practice, provider organization, or health plan level for performance review, identification of long-term trends, and ad-hoc analysis.

Easy Implementation

Hit the ground running with fast, easy, one-time set up and provider training available both in-person or live streamed sessions.

Together, you and your providers can close care gaps and reduce member risk scores.

FUELING ACCELERATED PERFORMANCE

LET'S TALK

Advantasure is a health technology product and services company that improves the performance of health plans and provider organizations in the delivery of government healthcare programs.

Through a comprehensive portfolio of products and services, we enable clients to lower administrative costs, increase reimbursement accuracy and improve the quality of care for their members. With an experienced team that brings expertise from across the industry, we serve a wide range of plans in the Medicare, and Commercial ACA markets.

When you work with the team at Advantasure, you'll find a partner as dedicated to your success as you are and professionals who are passionate about member care.

We thrive on innovation, strive for continuous quality and put our clients first.

That's how we fuel accelerated performance.
