

AffableBPM is an AI-powered SaaS Solution that automates and customises end to end business processes.

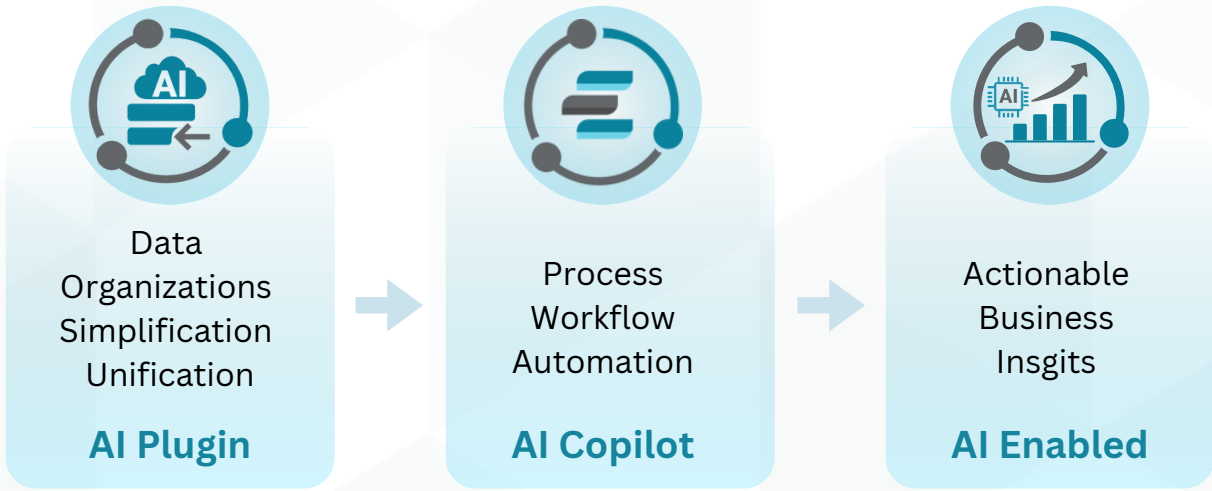

With our innovative solution, the customer achieved a significant ROI, leading to substantial savings.

“We’ve been able to move our contract submission and approval process from paper to electronic via AffableBPM. While most of the functionality of AffableBPM is available right out of the box, we have been able to customise the workflows as per our needs.”

- Kyle, (Sarasota Memorial Hospital)

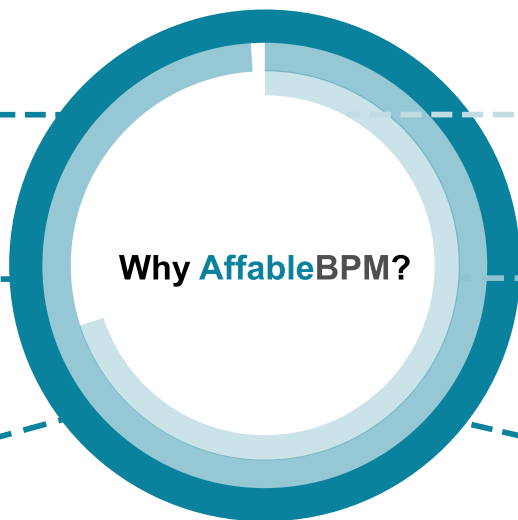

Microsoft Azure, Security, HIPAA blueprint, Azure BCDR, Azure Logic app
