Analytics Data Journey | Microsoft E5

Power BI is the end-to-end Business Intelligence tool provided by Microsoft, which allows organizations to connect to multiple data sources and process increasingly detailed and effective information, to achieve a strong impact on the growth of their business, with reduced investments. Microsoft 365 E5 Plan offers **Power BI capabilities** that can help analyze your data and derive insights in order to realize new business value.

Power BI - How to get Data Power?

> **2** Training course days

> **5** Support days in mode
> On-the-job training to gain basic experience and become autonomous

Analytics Data Journey | Who is it for?

All organizations that have Microsoft E5 plans and therefore have included Power BI and want to expand their use

All organizations that have Corporate Reporting systems and want to adopt innovative, easy and low-cost technology

All organizations that want to move towards a Data Driven logic and want to accelerate self-service analysis

All organizations whose IT sector cannot meet reporting requests on time and need a platform that optimizes the work of the team
