# AGIO

AGIO SKYSUITE

Agio SkySuite delivers small and emerging firms a fully hosted infrastructure in Microsoft Azure's Public Cloud. Your service comes complete with end-to-end management of your technology by engineers who specialize in supporting financial services. And when it comes to cybersecurity, we custom configure your systems to meet regulatory requirements, in addition to providing features like Mobile Device Management, Web Content Filtering, Data Loss Prevention and Multi-Factor Authentication to keep you safe and your investors happy. Bottom line, Agio SkySuite makes you more productive, reduces your costs, and decreases your cybersecurity risk – it's the all-in-one solution you couldn't find until now.

EVERYONE WANTS TO BE IN THE PUBLIC CLOUD

Working in Azure means your infrastructure has unlimited accessibility, mobility and scalability. It also means you're backed by Microsoft's billion-dollar investments in cybersecurity, compliance, backup and disaster recovery, as well as new product development. Agio takes this to the next level by specifically configuring your unique infrastructure in the cloud, including testing and implementing Azure's newest security features. Combined, SkySuite offers simply the best in public cloud computing for hedge fund, private equity, and other smaller alternative investment firms.

MANAGING YOUR ENVIRONMENT

Within our SkySuite offering, you receive 24x7x365 proactive management of your infrastructure and IT environment to make sure it's in a healthy state and stays that way. What does a "healthy state" mean? It means a reduction in downtime through early detection and remediation of issues. It means a managed and controlled environment with full reporting and accountability. And it means an increase in your end-user productivity through system availability, efficiency and performance.

Specifically, you receive:

- Infrastructure Stack
- Secured Firewall Configuration
- Circuit Monitoring & Management
- Hosted Voice Administration

- Domain Controller
- Agio Network Management
- Basic Cybersecurity Policy Documentation
- DDQ Documentation

END-USER SERVICES

Staffed by expert engineers 24x7x365, our help desk is actually helpful. Day and night, your end users have unlimited access to our remote support service, with the option of deploying on-site desktop support to your location. You'll work with an end-user support team that's dedicated to your business, so they understand your systems, tools and budget, with the full problem-solving power of Agio's entire client service team behind them.

This includes:

- Unlimited Agio Remote Help Desk
- Microsoft 365 (E3)
- Windows 10 Pro
- Email Hosting (100GB per user)
- Office Professional Plus
- File Sharing (1TB per user)
- DLP & Encryption
- Multi-Factor Authentication
- Hosted Anti-Spam
- Rights Management
- Email & File Sharing Backup
- Monthly Desktop Patch Management
- Agio Enterprise Mobility Management
- Agio Phishing Protection
- Agio Mobile Web Security
- Agio Endpoint Protection

Here's a sample blueprint of your infrastructure when you choose to work with Agio:

WHY AGIO?

#OneAgio

When you select Agio, you're investing in a relationship with everyone who's a part of this firm. Our teams operate in a symbiotic relationship, based on deposits and withdrawals, that creates a vehicle for delivering more than just service. We deliver an experience that reaffirms to our clients we've got them covered. From clean, concise implementations; to consistent support backed by automation and tools that work the way they're supposed to; to value-add reporting; to accurate, timely invoicing; and content on the latest IT and cybersecurity trends, we bring the full breadth and depth of our talent to bear. We deliver #OneAgio.
