Copilot Ada™: Your AI Learning Coach

Copilot Ada is a private and confidential tutor who teaches team members how to use Generative AI assistants to save time and become more productive.
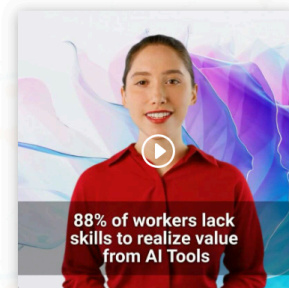

AI assistants like ChatGPT, Claude, Google Gemini, and Copilot for Microsoft 365 offer unprecedented potential in today's rapidly evolving digital landscape. **Yet, a critical challenge has emerged: the human side of AI adoption.**

The AI Skills Gap

The **AI4SP** global tracker, with insights from over 15,000 organizations, shows that most AI pilots fail to deliver results. The culprit isn't the technology—it's the lack of user proficiency.

Since **9 of every 10 team members lack proficiency in using generative AI tools**, organizations redirect AI budgets into training, recognizing that effective use is critical to success.

> Bridging the AI skills gap is no longer optional—it's imperative for business success.

88% of workers lack skills to realize value from AI Tools
