Your Guide to Success

Our Microsoft Solutions Partner designation ensures you have a competent, highly skilled firm to successfully deliver in even the most complex situations.

AIM meets you at any stage of your journey, providing expert guidance from initial strategy through full deployment.

Our comprehensive approach combines deep technical expertise, proven methodologies, and industry best practices to deliver optimized, well-architected solutions that drive lasting value.

Benefits

Increase Scalability & Flexibility

Right-size computing resources when you need them, on-demand and pay for only what you use.

Improve Security & Controls

Protect your assets with cloud security beyond traditional controls, with automated updates and industry-leading protection.

Cost Optimization & Efficiency

Optimize workloads for cost, reduce physical equipment, lower maintenance and real estate costs.

Governance & Compliance

Meet regulatory requirements confidently with built-in frameworks and streamlined governance.

Increase Reliability

Ensure reliable operations through automated backup and geo-redundant infrastructure.

Improve Transparency & Monitoring

Drive performance through centralized monitoring and real-time operational insights.

Our Solutions

Accelerating Success Through 4 Cloud Adoption Strategies

On-Premises to Cloud Migration

Transform traditional infrastructure into flexible cloud environments that scale with your business. Optimize costs and performance while shifting from capital to operational expenses.

Hybrid Cloud to Cloud

Create the perfect balance between on-premises and cloud infrastructure. Keep critical systems secure while leveraging cloud advantages for maximum business value.

Cloud to Cloud

Simplify complex multi-cloud environments into an efficient, unified ecosystem. Reduce costs and operational overhead while enhancing security across platforms.

Applications & Databases to Cloud

Evolve legacy systems into powerful cloud-native applications that scale dynamically. Accelerate innovation while maintaining reliability and data integrity.

Value of the Microsoft Cloud

Repeatable Process, Personalized Approach

AIM's cloud adoption framework delivers predictable success through a repeatable methodology that adapts to your unique needs.

1. **Strategize:** Align cloud initiatives with business goals while defining clear success metrics and resource planning.
2. **Plan:** Assess current state, identify gaps, and create comprehensive governance and migration roadmaps.
3. **Prepare:** Establish secure cloud foundations, including landing zones, networking, and operational frameworks.
4. **Migrate:** Execute proven migration patterns through iterative, risk-managed workload transitions.
5. **Optimize:** Enhance workload performance and cost efficiency in your new cloud environment.
6. **Govern:** Ensure ongoing security, compliance, and operational excellence through robust management frameworks.

Acceleration Process

Our accelerated migration approach streamlines cloud adoption through three key phases:

- **Assess:** Evaluate workloads and define optimal migration patterns
- **Implement:** Execute migrations using proven reference architectures
- **Release:** Validate performance and transition to optimized operations

Customer Success Stories

Architecting and Migrating an Enterprise Cloud Modern Data Architecture

AIM built a Modern Cloud Data Platform using Azure Data Factory and custom Azure functions to consolidate the client's reporting needs. The solution connected multiple on-premises sources and migrated 5 TB of data over 6 months, creating a unified data lake in Azure Storage for organization-wide access.

Enterprise Cloud Analytics Platform Development with DevOps Automation

A global software provider sought to boost workforce productivity through analytics. Using Azure services, AIM developed and migrated a multi-tenant hybrid cloud to an Azure Data Lake, implementing automated Data Factory jobs to Azure SQL with DevOps integration. AIM also enhanced security in Azure and Power BI with custom templates for data analysis.

Well-Architected Framework Transforms Logistics Security

AIM Consulting helped a global logistics company strengthen their Azure cloud security by implementing the Well-Architected Framework, resulting in a 40% reduction in incident resolution times and enhanced protection through automated security controls, centralized monitoring, and DevOps integration.

AN ADDISON GROUP COMPANY

aimconsulting.com

AIM Consulting, an Addison Group company, is an award-winning industry leader in technology consulting and solutions delivery. Known for our collaborative engagement model, we partner closely with clients to achieve their success.

Established in 2006 with offices in Seattle, Minneapolis, Denver, Houston, and Chicago, we are recognized among the fastest-growing private companies and best places to work. Our enduring partnerships with top technology consultants ensure successful outcomes, strategic execution, and advancement of modern technology initiatives.
