## Ensure Your Apps are Secure with Cloud Security Vulnerability Testing from AirGate!

Rapid assessment and vulnerability testing with real, ethical security "hacker" architect penetration testing to ensure your Cloud Applications are secure and hardened against threats.

Using OWASP10 based approach to comprehensive web and mobile security we conduct a thorough penetration test and deliver you actionable reporting along with guidance as to how to ensure you remediate and harden your application against threats.

Whether hosted in AWS, Google or Azure – or even on-premises, we will deliver exceptional quality vulnerability testing from our Ethical Hacking and Security Assessment team.

### Full Penetration Test and Report:

Our expert team of ethical, cloud certified architects and hackers will test your web or mobile applications for vulnerabilities and risks of breach .

Your report will provide detailed remediation recommendations for items of critical, high, medium and low risk so that you can take action to prevent security breaches and protect against threats. Testing and reporting takes 2-3 weeks per application and environment.

### Optional Secure Code Review and Architectural Security Review:

Add-on a review of your code for security risks and a full architectural review of your cloud environment to ensure compliance, security hardening and peace of mind.

## Special Offer: Only \$7,500 per Assessment!

- Our team of Cloud Certified Security Architects and Ethical Hackers will conduct your Application Penetration Testing.
- Detailed Report of Assessed Risks and Threat Vectors requiring your attention.
- Review with our Expert Team of our findings and recommendations.
- Optional Add-on: Secure Code Review (\$3,500)
- Optional Add-on: Cloud Architecture Security Review (\$5,000)
