

signNow

signNow goes beyond e-signatures to help companies move forward by automating business processes within the Microsoft solutions you already use and love.

With signNow, you can increase your organization's productivity with automated document workflows, delight customers with an intuitive and easy-to-use interface, and save money while maximizing ROI — all with the confidence that industry-leading security and compliance standards are keeping your data safe.

Why customers choose signNow?

Streamline business processes

- Shorten the approval cycle to 5 minutes instead of 6-14 days
- Close deals and execute contracts on your mobile device, even offline

The average first year ROI is 7x

Maintain security and compliance

- Password protect documents
- Reduce business risks with Audit Trail
- Track the status of documents in real time

SOC 2 Type II, 21 CFR Part 11, PCI DSS, CCPA

Improve customer experience

- Provide customers with signing guidance
- Let customers sign documents on any mobile device
- Send reminders and notifications

High ratings on G2Crowd for ease of use

After considering several e-signature platforms, we felt most comfortable investing with signNow given their SOC 2 certification and strict focus on ESIGN and UETA act compliance. Deploying signNow across all functions of our growing organization and within critical Microsoft 365 environments has simplified our entire workflow and provided us with valuable new tools — like the ability to collect signatures and initiate new workflows on a mobile device and access to a full Audit Trail.

Dan Rotelli
CEO, Bis

signNow's integration with **Microsoft Dynamics 365, Microsoft 365, Power Automate, SharePoint** and **Microsoft Teams** allows customers to focus on growing their businesses and less on document processes.

Benefits of using signNow within the Microsoft ecosystem

Approve documents on any device, in seconds

Empower your customers to create their legally-binding signature once, and instantly reuse it anytime they need to sign a document. They can draw or type their signature, or upload its image using a mobile device or desktop computer.

Simplify complex workflows

Let your customers arrange a signing order in a few steps for as many signers as they need. They can also enable/disable document forwarding, preset reminders, and set expiration dates and passwords for confidential documents.

Make it easy for recipients to fill out and sign documents

Customers can turn any document into an online fillable form by adding fields such as signature, date, text, initials, checkbox, and radio button fields. Connect fillable fields to a payment system to collect payments easily.

The outcome for your business

- Collect signatures in minutes
- Get complete visibility into the signing workflow
- Run your document workflows uninterrupted in Microsoft solutions

- Close deals faster
- Improve organization performance
- Spend more time on strategic initiatives

- Cut down document handling costs
- Eliminate document errors
- Optimize document storage and retrieval

Get started today and see why thousands of customers prefer signNow for its ease of use when sending, signing and storing documents safely and securely.
