

Centre of Excellence

Establishing a Microsoft Power Platform Centre of Excellence (CoE) means investing in and nurturing organic growth while maintaining governance and control.

A CoE is designed to drive innovation and improvement, and as a central function it can break down geographic and organisational silos, aligning business goals rather than individual department metrics.

Get Started with Ingentive

We will support you to identify why you're setting up a CoE and the key business outcomes you hope to achieve.

This will allow us to extend the CoE Starter Kit in a way which is tailored to your organisation. This is the first step fostering greater creativity and innovation across your workforce by empowering business units to digitise and automate their business processes, while maintaining the necessary level of central oversight and governance.

Why Ingentive?

At Ingentive, we specialise in unleashing the full potential of Microsoft's business applications, orchestrating complex Azure deployments, and navigating the intricacies of Microsoft Modern Workplace and Cyber Security. What sets us apart is our unwavering focus on infusing every solution with the transformative power of AI.

Governance

Maintaining governance and minimising risk is central to your organisation's CoE strategy

Security

Ensuring that governance guardrails are underpinned by Microsoft best practice in security

Community

Your organisation will only benefit from the latest technology if your people know how to use it.

Strategy

Bring governance, security and community together to tailor a plan for your specific business needs
