

Prompt Library

Introducing Copilot and other AI tools has opened up a realm of possibilities for both partners and users. In this era, the buzzword on everyone's lips is "Prompt" – the concise command that directs AI's actions. But how do you effectively communicate your intentions to AI? Enter the Prompt Library, a revolutionary app available on desktop or within Teams.

The Prompt Library serves as a centralised hub where users can create, refine, store, and share prompts effortlessly. Here's what you can do with it:

- Create New Prompts:** Specify Title, Prompt, Technology, and Team.
- Withdraw Prompts:** Temporarily remove prompts from availability.
- Revise Prompts:** Update and refine existing prompts.
- View Usage Data:** Access statistics on the most used and favourited prompts.
- Discover Trends:** Explore trending prompts over the past week, month, and year.
- Copy-Paste Functionality:** Easily copy prompts to your clipboard for seamless integration with your preferred AI platform.
- Favourite Management:** Keep track of your favourite prompts and access them conveniently.

With the Prompt Library, harnessing the power of AI has never been easier. Say goodbye to ambiguity and hello to precision in AI communication.
